Young Man Shot From Ambush While Riding Along The Highway

Harry Hudson and Allen Wrigley Have Terrifying Experience While Enroute To Wrigley Mine This Morning

BULLET ENTERED LOWER PART OF BACK

A mysterious shooting affray occurred near the forks of the road below the Robert Wrigley homestead in Lawrence township this morning and as a result Harry, the 20 year old son of Mr. and Mrs. James Hudson, Sr., of Lawrence township, is a patient in the Clearfield hospital suffering from a serious gun shot wound in the back.

Young Hudson, who is employed by Allen Wrigley as a miner in one of his mines on the Wrigley farm, was going to his work this morning riding in a buggy with his employer. Just as the buggy reached the forks of the road above the Leitinger country place the report of a gun was heard and a bullet struck Hudson in the lower part of the back and penetrated the pelvis.

The grating in the back of the buggy from the seat to the lower edge of the cushion is about six

inches high and the bullet passed through one of the openings in the grating.

The shooting occurred about 6:45 o'clock and as it was very foggy at this time the occupants of the buggy were unable to see who did the shooting nor from whence the bullet came.

Mr. Wrigley turned his rig around and drove the injured young man to the office of Dr. Stewart where first aid was rendered and he was then taken to the Clearfield hospital. It will be some time before the extent of his injuries are known but his wounds are considered quite serious.

The shooting is a mystery and the injured man said he had no known enemies and is at a loss to account a motive for the same if the shooting was intentional. He also said he had heard a shot shortly before the one which wounded him, but Mr. Wrigley says he heard but the one shot.

RED CROSS IS LOCAL RED MEN ARE GOING TO ALTOONA

Enthusiastic Meeting Held and Standing Committees Named By Permanent Chairman

RED CROSS WEEK 18 TO 25

A rousing meeting of the Clearfield Chapter Pennsylvania Red Cross was held in the auditorium of the High School yesterday afternoon at which time formulative plans were laid for the organization of branches throughout this district.

Hon. J. Frank Snyder, Chairman of the Clearfield Chapter, presided, outlining his experience at the National War Council held a short time ago at Washington. He went into detail as to the origin of this wonderful organization; the work it has accomplished in past wars; of the almost superhuman efforts that have been exerted in the present conflict; and what the members could expect in a tentative way as their share of the vast amount of work to be done.

A communication was read from the Board of Directors of the Clearfield hospital wherein they made application for the formation of a hospital unit for active service and a request to the chairman to select a director for the unit, the choice to be between Drs. S. C. Stewart and S. J. Waterworth. The matter was referred to the National Chapter for decision.

The formation of branches was gone over thoroughly and resolutions were offered and accepted for the formation of chapters at the following places: Arkthaus, Madera, Houtzdale, Woodland, Irvona, Coalport and Grampian. The question of jurisdiction of the Clearfield chapter has been amicably settled with the Moshannon chapter of Philipsburg and the DuBois chapter mainly through the efforts of Chairman Snyder, who has done a large amount of work since his appointment.

Mrs. R. D. Swoope of Curwensville, then announced that the Curwensville Chapter desired to come into the organization under the direction of the Clearfield Chapter and her statement that our little sister town already boasted of a membership of about 125 and had a healthy treasury condition brought a hearty round of applause from the assemblage.

The chairman then announced his committee appointments which will necessarily be large on account of the vast amount of work to be done and named the following as an executive committee: Hon. Allison O. Smith, H. F. Bigler; W. J. Usher, Richard Gilbert, H. B. Powell, A. K. Wright, J. P. O'Laughlin, Chas. T. Kurtz, M. J. Overly, W. I. Betts and J. C. Barclay. The finance committee which on account of the rules of the national chapter must be composed of men connected with banking institutions was named as follows: H. B. Powell, A. W. Lee, Sr., Jas. Mitchell, of Clearfield; G. D. Benn, Coalport; C. S. Russell, Curwensville and B. W. McCracken, Mahaffey.

The following were selected as representatives from the local chapter to attend the meeting at Harrisburg to be held on Thursday next: Mrs. A. O. Smith, Clearfield; Mrs. R. D. Swoope, Curwensville; Mrs. A. B. Mosser, Mahaffey; Mrs. G. B. Shively, Woodland. The question of funds and membership was discussed and explained by the chairman who outlined the plans of the national chapter for the observance of Red Cross week, to be held June 18th to 25th inclusive, when one hundred million dollars is to be raised and the membership greatly strengthened. It was stated that the United States, with her one hundred millions of population could only muster about two hundred and fifty thousand members of the Red Cross where other countries showed membership of anywhere from one to two millions.

During this Red Cross week the work will be done by teams acting under the direction of captains and they will wage a thorough campaign for funds and membership. It was also stated that anyone contributing one dollar automatically became a member of the organization. The meeting then closed subject to call of the chairman.

Last evening Chairman Snyder went to Curwensville and organized an active branch with an initial membership of 150. Mrs. R. D. Swoope was elected president and other

State Convention Will Be Occasion for Running Special Train To The Mountain City

TRIBE HERE IS PROSPERING

The state convention of the Red Men will be held at Altoona next Wednesday and a large crowd are preparing to go from Clearfield to the convention. A special train will leave here at 7:30 a. m. on the P. R. R. and special rates have been provided by the railroad company. Tickets must be bought in advance of Wednesday in order to take advantage of the special rates. They are now on sale at the Dooley Drug store. Of course tickets can be bought up until the last minute but it will materially assist the committee if you will order your ticket not later than Saturday evening. The special train will leave Altoona at 9:30 p. m. on Wednesday evening.

The local tribe Chinolaclamoos No. 407, is enjoying a great period of tribal prosperity. At a meeting last evening sixty new members were initiated which brings the membership up to almost five hundred. Nearly two hundred enjoyed a sumptuous banquet at their meeting place at the Mechanics hall last evening after the initiatory ceremony last evening.

The general public is invited to the state convention at Altoona next Wednesday.

Hustid And Clark Are Dismissed By Goethals

Dismissal Comes as Sequel to Attacks on the General

(By United Press) Washington, June 7.—The differences between the men who were to build the ships for the Allies came to a sudden stop today when General Goethals discharged H. E. Hustid, assistant manager of the United States Emergency Fleet corporation and F. H. Clark.

Goethals' action followed grumbling as to the building of vessels which was to have been completed several weeks ago. Last night Hustid and Clark issued formal statements attacking Goethals.

BIDS ON COURT HOUSE REPAIRS

The county commissioners opened bids for the repairing of the court house at noon today. They were as follows:

General Contract	
Beeman & Anderson	\$5992
F. B. Hewitt	\$3683
Heating and Plumbing	
Kittlerberger Bros.	\$3056
Heating	680
Plumbing	680
E. W. Webster	\$3350
Heating	880
Plumbing	880

After opening the bids an adjournment was taken until 11 o'clock tomorrow at which time the contract will no doubt be awarded.

GIRL DROWNED AT SMOKE RUN

Ruby Prespock, a 19 year old girl who lived with her parents at Smoke Run, this county left her home at 6 o'clock yesterday morning for the purpose of driving the family cow home from a neighboring field. She failed to return and a searching party discovered her body lodged under some driftwood in a small stream in the cowfield at 6 o'clock last evening. The recent rains had greatly raised the run and the girl had evidently fallen from a log while attempting to cross and was drowned.

Squire Ruffner, of Madera, held a coroner's inquest and a verdict of accidental death was returned.

MECHANICS LEAVE CLEARFIELD

Round House Foreman P. A. Kuhn, Assistant Foreman W. D. Dixon and A. C. Reed of the N. Y. C. shop force left today by auto for their new positions with the Cambria and Indiana railroad in Cambria county.

ment women of the town were enthusiastically received into the organization.

Pershing And Staff Landed At Some British Port Early This A. M. Without Announcement

FIRST U. S. REGULARS LAND IN FRANCE

Washington, June 7.—One hundred naval aviators to aid in detecting submarine activities and other additional troops arrived safely in France today. These are the first officers and men of the regular fighting force to land.

Bulgarian Thinks U. S. Army Will Turn Trick

Looks for Turkey to be Heaviest Loser at End of Conflict

By Arthur E. Mann
Stockholm, June 8.—"If the war lasts a sufficient length of time for America to send an army to Europe I believe the tide will turn against Germany," was the frank expression of Dr. Sakaroff, a member of the Bulgarian parliament and one of the Socialist delegates to the conference here. "The Bulgarian Socialists are just as good internationally as those of other countries," he said, referring to charges of imperialism against the Central Power representatives here. Although against war since the beginning we were not of sufficient strength to prevent war any more than the proletariats who have to bear the heaviest cost of the conflict. I believe Turkey will be the heaviest loser, her territory will be taken from her and she will become a vassal of Germany after the Serbs and Roumanians will suffer. I believe Serbia should include all the land inhabited by the Serbian people. Roumania should return Dobruja."

'Tis a Rocky Road From Philipsburg

"Coming Full of Rye" Popular Ballad These Evenings

There is a carnival showing at Philipsburg this week and large numbers of our sportily inclined young men have been making nightly pilgrimages to the tawdry shrines of the hula hula and hoochamooch artists. In order to swallow the show the visitors found it necessary or made it necessary to swallow divers and sundry other things with a faculty for going down easily but which failed to taste as good coming up as they did going down. The result of all this high living in war times has been apparent to all those who, taking their lives in their hands, dared to venture out upon the highway connecting our town and the Centre county metropolis.

Every morning a buzz wagon or two has been found by lying on trees or telephone poles along the roadway, while it is said that the entire route has been a mecca for junk peddlers today, as our automobile editor informs us (and he is quite truthful—sometimes) that anywhere from three to six different machines were wrecked, busted or demolished twice here and the burg last night.

There have been many near accidents but thus far all have managed to come through with whole hides, and as the dod-busted carnival only has two nights to run yet we are hoping to get away without any casualties, but if we do we'll be going some.

Going to Altoona Wednesday? Get your ticket at Dooley's Drug Store.

K. OF C. BUYS LIBERTY BONDS

Clearfield Council, Knights of Columbus at their meeting last night voted to purchase \$400 worth of Liberty Loan Bonds, besides making a contribution of \$25 to the Clearfield Chapter of the Red Cross and \$25 to the Belgian Relief Fund.

FORMER CLEARFIELD GIRL DIED

D. W. Young, of Glen Richey, was in town this morning en route to Aurora, Ill., to attend the funeral of his sister, Maggie, who died at her home in Montana yesterday. The funeral will be held from the home of her sister Mrs. John James in Aurora.

The Coast Artillery school at Fort Monroe, Va., had its beginning as far back as 1824.

Expresses Surprise That The World Did Not Know He Had Left The U. S. Will Arrive at London 3 P. M.

NO ANNOUNCEMENT MADE ABOUT TROOPS

By Frank Getty
At Some British Port, June 8.—Major General John J. Pershing, commander of the first American expeditionary force to France, arrived in England accompanied by his staff today.

He reported a pleasant trip and was astonished that his arrival was such a surprise. "I thought the whole world knew I was leaving the United States," he declared. The American army chief and his staff were accorded a tremendous ovation upon their arrival. A special train met them and they expect to be in London by three o'clock this afternoon.

"We are very glad to be the standard bearers of our country in this great war for Liberty," said General Pershing. "We expect soon to be playing our part—and I hope it is a very large part—on the western front. They reported the voyage as uneventful. No submarines were encountered and no mines were seen. The weather was good, and the sea smooth.

American destroyers conveyed the vessel all the way over. They were met 100 miles out from the Irish coast by British convoys. The vessel arrived at 8:30 this morning. At the dock guards of honor stood rigid at attention as the band played "The Star Spangled Banner." British army and naval officers greeted the party. As Pershing descended the gang plank he formally inspected a group of British soldiers in the reception party, and stopping a moment to talk to one of the guards he noticed stripes on the sleeve of a soldier who had been wounded twice. Pershing asked the why and wherefore of the stripes and wounds. When the American general and his staff landed the band played "God Save the King." After the formal ceremonies General Pershing was greeted by American and British newspaper men answering their questions cheerfully and readily.

Corp. Frank Bannon Is Doing Police Duty

Clearfield Lad on The Border Helps To Run Down Bootleggers

The following taken from a border newspaper tells of the attempt to enforce the army prohibition order and the part played by Frank Bannon, a Clearfield member of the regulars.

Although seven intoxicated soldiers have been arrested since Sunday night, when the local authorities undertook to aid in the enforcement of the new law prohibiting the sale of liquor to soldiers in uniform, it is believed they got their liquor from "bootleggers" rather than saloonmen. So far as the police authorities have been able to discover the saloonmen are obeying the law.

Three of the soldiers facing this charge were picked up Thursday night on the West Side by Police Captain Brown and Sergeant Ogletree and Corporal Frank Bannon of the military police. One of the men so arrested was recognized as an old offender who, prior to joining the army, lived in San Antonio. Another soldier, dressed in civilian clothes instead of his uniform, contrary to the new military order, also was arrested Thursday night.

G. N. Ellenberger Hurt By Runaway Horse

Will be Laid up for Several Days as Result of the Accident

G. N. Ellenberger is confined to his home on West Market street suffering from severe injuries received when his horse frightened and ran away last evening. The accident occurred near the stable late last night. In attempting to quiet the restless animal Mr. Ellenberger was knocked down and the wagon ran over him. His legs below the knees were badly cut and bruised and it will be several days before he is able to be about.

The horse was caught by a couple of members of Company I at the Market street bridge. Very little harm was done to the horse, but the wagon was pretty badly used up.

Special train to Altoona Wednesday. Get ticket at Dooley's Drug store.

DR. MAYO MAKES SNAPPY SPEECH AT NEW YORK

New President National League Of Physicians Explodes Theory Of Alcohol As A Medicine

MEDICOES WELCOME DRY LAW

Dr. Charles H. Mayo, of Rochester, Minn., was inducted into office as President of the American Medical Association in the grand ballroom of the Waldorf-Astoria, New York City, Tuesday evening, June 5th.

Three thousand physicians and surgeons, with a scattering of their women folk, filled the floor space, packed the three galleries and overflowed into the wide corridors.

By its applause this audience, which stood for the best in medical and surgical science in the United States, and the voice of which may be accepted as expressing the majority opinion of the associations 80,000 members, put the stamp of its approval on the following assertions of the great surgeon from Minnesota made in his installation speech:

"Alcohol's only place now is in the arts and sciences. National Prohibition would be welcomed by the medical profession.

"Our country should secure a medical Cabinet officer in the near future.

"Our great task now is to propagate and train bacteria to be man's true slaves.

"More good will come of tongue control than from birth control.

"Medicine has become now nearly an exact science.

"The war has been followed by a hysterical demand to lower the standards of education of physicians. A lowering of the standards must not be permitted. If we ever needed educated men, it is right now."

Dr. Mayo's speech followed addresses of welcome by Dr. Wendell C. Phillips, Chairman of the Committee on Arrangements; Dr. Alexander Lambert, President of the State Medical Society, and Prof. Walter B. James, President of the New York Academy of Medicine.

In leading up to his approval of prohibition, Dr. Mayo said:

"We must aid in all that will elevate the general standard of and conserve the American citizen. Prohibition is a war measure the value of which is beyond discussion. Medicine has reached a period when alcohol is rarely employed as a drug, being displaced by better remedies.

Harbison-Walker Helps Employes Buy Bonds

Men Will Avail Themselves of The Opportunity to Help the War

The Harbison-Walker Refractories company has subscribed for a one million dollar block of the Liberty Loan and are offering half of it to their employes on the partial payment plan. They will sell the bonds outright but the following method outlined on their announcement is one of merit. It really gives the employee a \$50 bond for \$40 and a \$100 bond for \$98.

We think it more important that you subscribe for as many bonds as you can conveniently pay for in monthly payments deducted from your pay. We have therefore figured out what to us seems a very simple plan, by which on signing a blank subscription for a \$100.00 bond, authorizing us to deduct from the following month's pay the first payment of \$10.00 and from each of the eleven following months pay \$8.00, making a total of \$98.00 paid in the course of the year, we will deliver this bond to you on receipt of the last payment. This is allowing interest compounded at the rate of 4 per cent. If after making several payments you should not be able to complete the same, we will return whatever money has been paid plus interest at 4 per cent.

A \$50.00 bond may be bought in the same manner as above by making a first payment of \$5.00 and deducting from each of the eleven following months' pay \$4.00, making a total of \$49.00 paid in the course of the year. We would much prefer that you subscribe for a bond in the above manner than to draw your savings out of the bank and purchase one, although you can, if you wish, do both. Drawing your savings from the bank deprives it of money to loan others for the same purpose. It is the employee who subscribes for a bond and pays for it out of additional savings who is doing the most good.

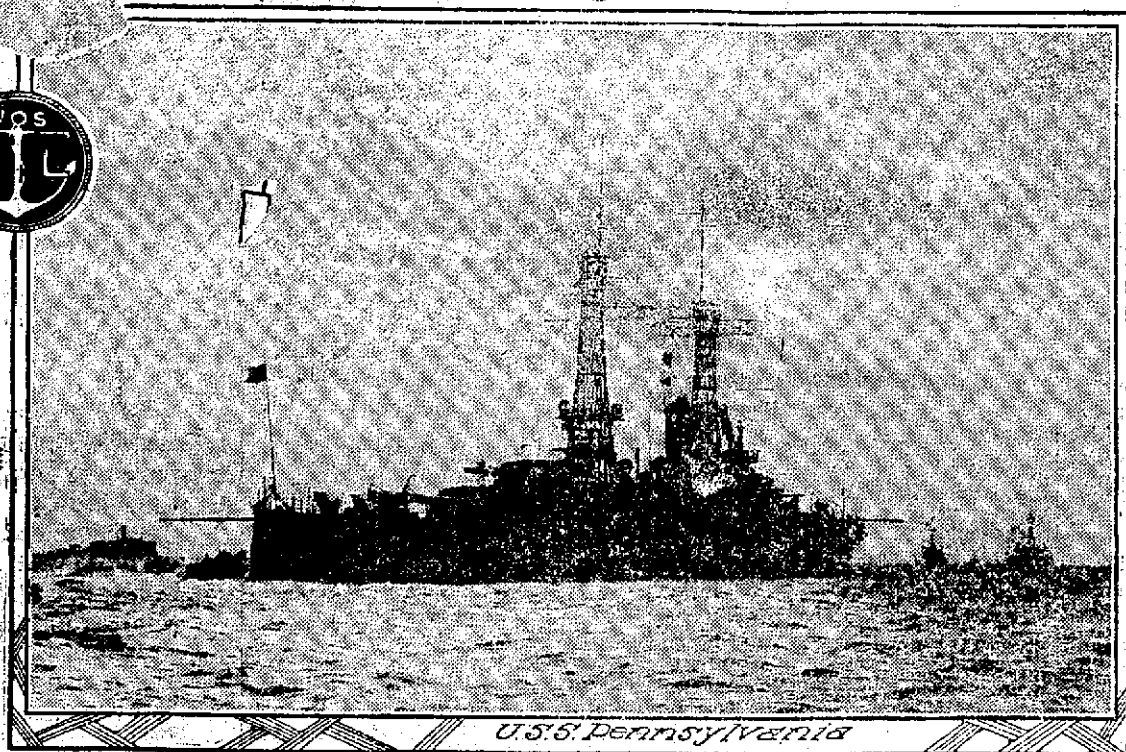

HAVE CONTRACTED FOR 161 WOODEN SHIPS

Washington, June 7.—The Shipping board announced today that contracts for 161 wooden ships had been awarded within the last ten days.

From Britain's Official War Cook-Book

Fish Cutlets—Cooked fish of any kind, in an equal quantity of cooked rice or barley, one teaspoonful of butter or margarine to each cupful of the mixture. Season to taste. Pound the fish and mix it with the cereal while warm. When cold shape into cutlets and fry.

Getting Behind the Armed Forces is as Necessary as Getting in Them

the organization of the forces at home, the man power and woman power of the nation.

The task of organizing these forces is, however, an extremely difficult one. There are hundreds of thousands of patriotic men and women in the country today anxious to do their "bit" for their country who do not know where to fit themselves in. "What can I do to serve my country?" is a question on the lips of thousands of Americans today.

An Opportunity For Service.

The Navy League of the United States offers an answer to that question for every man and woman by affording them an opportunity for patriotic service in support of the United States Navy.

The need of the services being rendered by Navy League members has been acknowledged by Secretary of the Navy Josephus Daniels, and the thanks of the government.

tion on the part of men and women of every community.

Opportunity number two is offered to women to make comfort garments for the men of the fleet. These are not supplied by the Navy Department, and Secretary Daniels has officially welcomed the assistance of the League in this work.

In this democracy of ours naval policies must rest upon the broad foundation of public opinion. Therefore, it is a duty of citizenship to know the Navy, to keep in touch with it, to be familiar with its functions and its needs.

If there is an organization in your city centering itself to this patriotic work the opportunity is offered you to get *behind* the Navy and do your "bit."

If there is no such organization, the bigger opportunity is offered you to become a moving spirit in the formation

The Finance Committee should be composed of as few persons as possible, one person frequently being enough.

The Finance Committee collects funds to carry on the work. Let it make a thorough campaign among business and professional people for aid.

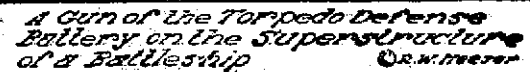

The Press Committee should consist

Work with your moving picture theatres to show Navy films and slides. Keep the Navy in all motion picture houses all the time. Get in touch with your film exchanges and see what they can do for you.

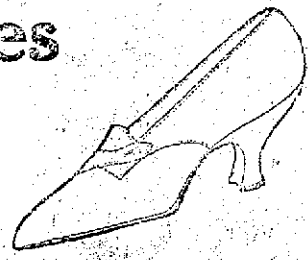

Get a good list of speakers who know how to talk for the Navy. Book them at picture shows and every public meeting where they can be heard.

Get people to volunteer the use of their motor cars for recruiting work, to visit factories and outlying towns.

Every woman in every branch of the U. S. Navy can help in the work of our warm garments for the U. S. Navy when they face the U. S. Navy's submarine patrol work. Submarine patrol work is a very important part of the Navy's work now in the Pacific. These who cannot do the work of others to work on either join the League and help your city or else you can help in many other ways. The Navy has many other ways of helping in the work of our warm garments for the U. S. Navy. The Navy League will help you in every way. Write to the Navy League, 1000 Broadway, New York, N. Y., and we will be glad to help you.

CURWENSVILLE

Mildred Shaffer, Blanche and Maud Graham left today for Green Lake, Wisconsin to spend the summer vacation. They intend to go by the way of Chicago and will visit friends in Chicago.

Mrs. Fred Wilson, of Clearfield, visited her parents, Mr. and Mrs. George Daugherty on South Side yesterday.

Mrs. H. B. Hile and son William Wednesday in DuBois with her mother Mrs. Garrison, it being her 79th birthday. Mrs. Garrison is well known in Curwensville, having lived here for some time.

Mrs. Orvis Thompson has returned home from a visit to Williamsport.

Raymond Bloom, son of J. Roll Bloom has enlisted in the U. S. navy at League Island, Philadelphia.

A lot of town people never knew they had German blood until it broke out in the form of measles.

Roll Draucker, formerly of Curwensville, now residing at Smithfield, N. D. is visiting relatives and old acquaintances in town. Mr. Draucker was called to Cleveland to attend the funeral of his brother C. C. Draucker who met his death in head-on collision as fireman on a B. & O. train. His brother Thomas M. of Punksutawney also attended the funeral.

Mrs. Ernest Aughenbaugh has been on the sick list for several days at her home on South Side.

Attend the community Chautauqua, June 20-24.

B. E. McDivitt and family have moved from South Side to Renova.

Mrs. McDowell, of Clearfield is visiting her son Ashley P. McDowell at Nant.

Mrs. Arthur Robison, of Punksutawney, was a recent visitor to the home of her parents Mr. and Mrs. John Myers on South Side. She also visited other relatives in town.

Mrs. Fred, Stockbridge of McKees Rocks, visited her mother-in-law Mrs. Henry Stockbridge this week.

George Twigg, of Philipsburg called on friends in town yesterday.

Hon. Chas E. Patton and family arrived in town from Harrisburg yesterday for the summer.

Elizabeth Curtin left yesterday for an extended visit with her sister Margaret at Curtin, Pa.

C. H. Miller, now of Sullivan Sweater company, Philadelphia, formerly of Cham company returned to town yesterday as a salesman after 15 years absence.

The people of Patton addition and Bailey road feel that inasmuch as they are included in borough taxation they are entitled to borough protection, and appeal to the fairness of council for the establishment of a fire plug, the last one being at Call's store on Filbert street.

Remember the food sale by the ladies of the Baptist church Saturday afternoon in the room formerly occupied by Frank H. Davis the plumber.

WALLACETON

Mr. and Mrs. Wm. Stempffly and children, and Mr. and Mrs. Francis Bortoff motored to Philipsburg Monday evening and attended the carnival showing there this week.

Mr. and Mrs. Elliot Appleton, of Akron, Ohio, visited here over Sunday. The former returned to his place of duty on Monday and the latter left on Tuesday on a visit to relatives at Mill Run, Bradford.

Clair Smith was a week end visitor at Manson.

C. I. Wolfe, S. L. Reon and Pat Turner, the latter is a Scranton boy who has been here visiting relatives, enjoyed an auto ride to Philipsburg on Sunday.

Grover Johnson was here the other day from Philipsburg.

Bill Twoey had business at Clearfield on Saturday.

Wm. Hynd, Harry and Wavel Knepp have just recently purchased new Overland touring cars.

A few of the boys who are employed at the Elk Run Fire Brick plant at Renova inform us that they are making good money like the place and intend to keep their present positions.

LEITZINGER BR

LIKE ELECTRIC
BUTTON ON TOES

Tells why a corn is so painful and says cutting makes them grow

Press an electric button and you form a contact with a live wire which rings the bell. When your shoes press against your corn it pushes its sharp roots down upon a sensitive nerve, and you get a shock of pain.

Instead of trimming your corn, which merely makes them grow, just step into any drug store and ask for a quarter of an ounce of freezonia. This will cost very little but is sufficient to remove every hard or soft corn or callus from one's feet. A few drops applied directly upon a tender, itching corn stops the soreness instantly, and soon the corn shrivels up so it lies right out, root and all, without pain. This drug is harmless and never inflames or even irritates the surrounding tissue or skin.

No. of children in Home at the present time

Through the efforts of the society one little girl was given the required outfit and placed in Crescent Tuberculosis Sanatorium. There has been a good health record maintained at the Home. Besides a few cases of children's contagious diseases only three children had to be sent to the Hospital for minor operations.

There has been an increasing interest displayed in the Home and children in our town and in the surrounding communities and the society has received many gifts of money and materials, which has assisted.

GLASS OF SALTS
CLEANS KIDNEYS

If your Back hurts or Bladder bothers you, drink lots of water.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours the ystrain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounce set Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to clean and stimulate clogged kidneys, also to neutralize the acids in urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink. Everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

The howitzer is the modern representative of the mortar, being a short, light gun, capable of firing a heavy shell at a low velocity.

Lyddite, the explosive used in the most deadly of all shells, takes its name from the English village of Lydd, where it was first made.

Minler's Antiseptic Oil Known As

Snake Oil

Will Positively Relieve Pain In Three Minutes

Try it right now for Rheumatism, Neuralgia, Lumbago, sore, stiff and swollen joints, pains in the head, back and limbs, corns, bunions, etc. After one application pain almost disappears as if by magic. A new remedy used internally and externally for Coughs, Croup, Sore Throat, Diphtheria and Tetanus. This oil is considered to be the most powerful remedy known. Its prompt and immediate effect in relieving pain is due to the fact that it penetrates to the affected parts of one. As an illustration, pour two drops of the thickest piece of sole leather, and it will penetrate it in substance through and through in three minutes. Accept no substitute. This great oil is golden red color only. Every bottle guaranteed 25c, 50c and \$1.00 per bottle, or money refunded. For sale by Dr. J. H. Duggan, Clearfield, Pa.

WANTS

WANTED—Washings to do at home. Inquire at 205 West Sixth avenue. J-28-tr

FORESTRY PROGRAM FOR PITTSBURGH MEETING

Fine Entertainment to Be Provided For Delegates to Big Conservation Congress.

The local committee of arrangements for the International Forestry Conservation Congress at Pittsburgh June 21 to 23 next has announced its program for the meeting which will bring together the leading foresters and conservationists of the country. Thomas Liggett, general chairman, will call the congress to order at 9 a. m. on Thursday, June 21, in the auditorium of the Pittsburgh Chamber of Commerce. The delegates will be welcomed by Mayor Joseph G. Armstrong of Pittsburgh and by Frank J. Laraman, chairman of the convention committee of the chamber of commerce. The response will be made by Dr. Henry S. Drinker, president of the Pennsylvania Forestry association. Addresses will be made by Charles Lathrop Pack, president of National Emergency Food Garden Commission and of the American Forestry association; A. B. Farquhar, president of the Pennsylvania Conservation association; and Hon. Robert S. Conklin, commissioner of forestry of Pennsylvania.

In the afternoon the delegates will have the headquarters at the Fort Pitt hotel for an automobile trip over Pittsburgh, improved roads, with one or two stops to inspect points of interest as forestry propositions. They will visit the Country Lakes association of Susquehanna valley and return at 5:30. At 8 p. m. there will be an informal reception of visitors and delegates at the chamber of commerce. George M. Lehman, engineer of the Lake Erie and Ohio canal commission, will read a paper on "Forest Cover in Its Relation to Water Flow, Floods and Droughts." George H. Witt, chief forest warden of Pennsylvania, will lecture on "Forest Fire Prevention," illustrated by the department of forestry film, "The Cause of the Forest."

At 9 a. m. Friday addresses will be delivered by Dr. Elbert Roth, professor of forestry of the University of Michigan; Professor R. E. Fernow, of the University of Toronto, Canada; and Dr. Henry S. Graves, city forester of the United States division of forestry. In the afternoon James L. Grimes, city forester, will give an open air lecture on "Shade Trees and Municipal Planting," visiting places of interest about the city.

At 8 p. m. Dr. J. T. Rodrock, president emeritus of the Pennsylvania association, will give an illustrated lecture, "Desolated Pennsylvania," and John M. Phillips will speak on "What the Forestry Association Can Do to Help Western Pennsylvania Secure Forest Areas."

Saturday, June 23, will be devoted to an excursion in a special train via the Baltimore and Ohio railroad to the forest areas of Laurel Ridge in Fayette county, Pa., with an all fresco luncheon.

STEEL FIRE LOOKOUT.

This is the forest fire warden's periscope. It stands on high ground in Pennsylvania's state forest preserves

and gives the forester a view for many miles around. This picture is from the exhibit which will be shown at the Forestry Conservation Conference at Pittsburgh June 21 to 23 next.

NOTICE OF AMENDMENT OF CHARTER

Notice is hereby given that application will be made to the Public Service Commission of the Commonwealth of Pennsylvania by T. W. Phillips Gas and Oil Company of Butler, Pa., for a certificate of Public Convenience, authorizing the Commission's approval of an amendment of charter by enlargement of territory within which the company may produce, mine, purchase, or otherwise procure and store natural gas for other than domestic, both, or other purposes, and to have all the rights and privileges necessary or convenient thereto; so as to include the whole of the counties of Clearfield, Elk and Cameron in the State of Pennsylvania.

The public hearing on which will be held in the rooms of the Commission at Harrisburg, on the 22nd day of June, 1917, at 9:30 o'clock A. M., when and where all persons in interest may appear and be heard if they so desire.

T. C. CAMPBELL, Solicitor for Applicant.

Tickets for the Senior play will be changed free of charge at Stewart's Drug Store Saturday, Monday and Tuesday afternoons.

Liberty Loan Message To American Women

Every Woman in Clearfield County Should Read This Article

By Mrs. Antoinette Funk
Vice Chairman of the Woman's Liberty Loan Committee

Since the government has called upon the women to Give their sons for our country's life, the Woman's Liberty Loan Committee dares to call upon them to help Supply the money to sustain those sons.

Washington, June 8.—The purpose of the Liberty Loan is to give funds to the government so that it can conduct this war for liberty and democracy in an efficient manner. The quicker this money is supplied, the quicker will come the end of the war with its consequent saving of human life. The denominations of the bonds are as low as \$50 and the payments are easy. A subscriber can pay cash if she wants to, but she does not have to. A Liberty Bond should be in every home.

Because so far we have been remote from the scene of war, we are inclined like the foolish ostrich, to hide her head in the sand, not realizing, not believing, closing our eyes to the actual threats of danger that are here. No man liveth to himself alone and the time is here when no nation liveth to itself alone. We are bound up in the warp and woof of nations, a part of the fabric. The welfare of one is the welfare of all.

The gigantic struggle that has been going on in Europe for almost three years is not a struggle to settle boundaries, not to gain revenge for old disputes. It is a war to establish the right to life and liberty. It is a war against savagery, and after nothing but the savagery that sent the Lusitania to the bottom.

It is our notice served upon the world that the high seas are free to the world. It is a notice to the world that we and our neighbors in this hemisphere will not tolerate that the oppressor's foot be sent upon our shores. It is for the honor and safety of our women. It is for a safe and free home for our children. The only nation under the sun which was born a democracy is carrying her doctrine of democracy to the uttermost parts of the earth.

As women have always helped, they must help now. Their first great task is lending out of their fullness that the war of righteousness upon which America is now engaged shall result in a glorious past and a glorious freedom and that the generations that come after us may indeed call us blessed. Every woman's first duty is to buy a Liberty Loan Bond. It is a woman cannot buy a bond, it is her duty to persuade some other woman who can do so.

WOUNDED THREE TIMES, HE WANTS REVENGE

London, June 8.—Introducing Mr. Harry McMichael of Augusta, Ga. Mac has been strated thrice by the Kaiser's missiles, but he hasn't taken the count yet and all he wants is another shot at a spiked helmet.

Mac learned the game in the Second United States Cavalry. He joined the Fifteenth Canadian Battalion in June, 1915. A machine gun bullet hit his leg in the fall of that year. Back from the hospital, a shell fragment picked this brow as he went "over the top" in a charge.

Back once more from "blighty," Mac took a stretch and a yawn in view of the German trenches and a bullet bored his jaw, removing five teeth. Today, in the hospital, this soldier of the south is just getting on his feet again. He wants to join the Americans when they arrive—and his ear is eager for the welcome sound of "Dixie."

A century ago several Americans began the building of a submarine boat with an idea of using it in an attempt to rescue Napoleon from St. Helena.

LADIES! DARKEN YOUR GRAY HAIR

Use Grandmother's Sage Tea and Sulphur Recipe and Nobody Will Know

The use of Sage and Sulphur for restoring faded gray hair to its natural color dates back to grandmother's time. "She used it to keep her hair beautiful dark, glossy and attractive. Whenever her hair took on that faded or streaked appearance, this simple mixture was applied with wonderful effect."

But brewing at home is messy and out of date. Nowadays by asking for any drug store for a 50 cent bottle of Wyeth's Sage and Sulphur Compound you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well known downtown druggist says it darkens the hair so naturally, and evenly that no one can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after noticeable replication or two, it becomes beautifully dark and glossy.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended to cure the cure, mitigation or prevention of disease.

MAURICE McLAUGHLIN WILL COME BACK AT TENNIS

By H. C. Hamilton
(United Press Staff Correspondent)

New York, June 7.—From the Pacific Coast comes the news that Maurice McLaughlin, the red-haired comet of tennis, is on his way back to new fame. Picking out a doubles contest in which McLaughlin, with some help from Willis Davis, downed William M. Johnston and Wallace Strachan, the coast fans have been praising the former unbeatable champion, until their throats must ache.

Reports of Mac's return to form must be taken with something of a grain of salt. His feat in winning, almost single handed, the doubles match spoken of doesn't mean an awful lot. He virtually performed the same thing a year ago at Forest Hills here, but failed when he started against the stars in the singles contest.

McLaughlin was so good in the best days of his career and is so different now that a comparison between the two is something almost impossible. When a fan sees Mac streak along for a short time with his fierce drives and speedy return shots from unbelievable angles he immediately loses all control of his emotion and pronounces McLaughlin on the way back.

There isn't a tennis fan in the United States who wouldn't like to see McLaughlin's sorrell tresses again adorned with the national crown. There never was a more popular athlete in any branch of sport than the red-headed tennis streak. But to say that McLaughlin has reached the heights he once attained probably is overdoing it. It is hard to believe he has accomplished what he failed in doing a year ago after making such a brilliant showing in doubles play.

Undoubtedly the praise he has received and the satisfaction he must have gained in being able to down a former national champion in Johnston will be a most impelling thing in sending Mac to try his hand at the game again next fall on the Forest Hills courts. He can't win a championship this year, for there will be no such thing, but he can find out if he is ready.

The foundry at Crusot, where the great guns for the French army and navy are made, was started 80 years ago by a family named Schneider. Today the plant rivals in size the famous Krupp works at Essen.

These Materials Will Make Such Pretty Dresses

Madam, If You Have Been Putting Off The Purchase Of Your Summer Dress Materials This Will Be Welcome News For You. The Hot Weather Will Be Here In A Twinkling

The collection that we are showing of summery materials, such as voiles, organdies, lawns, dimities and the like, is really exquisite. Some of the stripes are a wee bit daring but that's what they're all wearing. There's a fusion of floral patterns and plenty of plain colors, course.

The price is one of the most enticing things about collection in view of the unusual conditions. They marked at from 10c to 69c the

A BARGAIN TABLE OF WOMEN'S AND CHILDREN'S SUMMER LOW-CUTS

It isn't often that we offer such a thing as a "bargain" but we really find that we have too many of these low-cut in stock—some of them we have carried over from last year and may be just a little out of the prevailing fashion in view of the existing conditions in the savings to be made are worthy of your particular attention, especially if there are many little pairs of feet to be shod.

They are all placed on a table in the centre of the store and plainly marked at

A NEW LOT OF SHEER SHIMMERY HOSE

They are just as dainty as they can be and are just thing for the pumps and low shoes that are going to be rage this summer.

They are a fibre silk boot hose with little garter. Come in champagne, brown, gray, blue and pink. They marked to sell at

ELOUSES FOR THAT ROUSING ROMPING BOY

Elouses that will stand all the rough usage that you expect a husky ten-year-old to give them. Made of gingham and some percales in blue stripes and white colored stripes. Have turn down collar. "Just like the

Mrs. Chester Fugate of Mahaffey, attended the Red Cross meeting here yesterday.

Mrs. K. Wrigley of Curwensville, spent yesterday shopping here.

I. W. Best of Coudley was in town on business today.

Mrs. A. M. Thatcher who is a pneumonia patient in the Clearfield

ON THE SCREEN

"THE GUN FIGHTER" HAS WM. S. HART AS STAR

"The Gun Fighter," with William S. Hart as its star, will be seen at the Tent Friday. This is the latest Triangle play featuring the celebrated delineator of Western roles. In its production Hart is seen as the head of a gang of outlaws, whose proudest boast of the number of tenants in his "private graveyard," until he meets a young girl who tells him to his face that he is a cold blooded murderer and not fit to associate with civilized people. A terrific conflict follows in the soul of the bad man, with good finally triumphant, and the outlaw sacrifices his life for the girl who has shown him to himself in his true colors.

Hart's leading woman in "The Gun Fighter" is Margery Wilson, who has been seen in a number of noteworthy roles for Triangle, among them leading roles with Hart in "The Return of Draw Egan" and "Truthful Tulliver," with Charles Ray in "The Honorable Algy" and with Frank Keenan in "The Sin Ye Do" and "The Bride of Hate."

"THE GATES OF EDEN"

Divine's Drama of Shaker Life Has Viola Dana as a Star

A drama of life in a Shaker community, written by the Rev. William E. Dafforth and with Viola Dana as the star, is "The Gates of Eden" a five-reel Metro-Columbia feature which will be seen at the Globe theatre tomorrow.

Miss Dana, youngest of motion picture stars, has two roles in this powerful production, first appearing as Evelyn, a scorned mother and next as Eve, her daughter. The story contains strong love elements and gives the young star ample opportunity to display her emotional abilities.

Supporting Miss Dana are Augustus Phillips, Robert Walker, Edward Earle, Grace E. Stevens, Fred Jones and Harry Linson. John H. Collins, who directed the production, declares it is one of the strongest and most beautiful pastoral dramas he has produced for the screen.

One of the first submarines constructed by John P. Holland was built in 1881 on order of the Fenian Brotherhood, which hoped to destroy with it the British navy.

There are two extreme theories, each of which may be dismissed with scant courtesy. The one is that all war expenditures should be defrayed by loans, and the other is that all war expenditures should be defrayed by taxes. Each theory is untenable.

It is indeed true that the burdens of the war should be borne by the present rather than the future generation; but this does not mean that they should be borne by this year's taxation.

Meeting all war expenses by taxation makes the taxpayers in one or two years bear the burden of benefits that ought to be distributed at least over a decade within the same generation.

In the second place, when expenditures approach the gigantic sums of present-day warfare, the tax-only policy would require more than the total surplus of social income. Were this absolutely necessary, the ensuing havoc in the economic life of the community would have to be endured. But where the disasters are, so great and at the same time so unnecessary, the tax-only policy may be declared impracticable.

Secretary McAdoo had the right instinct and highly commendable courage in deciding that a substantial portion, at least, of the revenues should be derived from taxation. But when he hit upon the plan of 50-50 per cent. of raising one-half of all domestic war expenditures by taxes, the question arises whether he did not go too far.

The relative proportion of loans to taxes is after all a purely business proposition. Not to rely to a large extent on loans at the outset of a war is a mistake.

Disadvantages of Excessive Taxes. The disadvantages of excessive taxes at the outset of the war are as follows:

1. Excessive taxes on consumption will cause popular resentment.

2. Excessive taxes on industry will disarrange business, damp enthusiasm and restrict the spirit of enterprise at the very time when the opposite is needed.

3. Excessive taxes on incomes will deplete the surplus available for investments and interfere with the placing of the enormous loans which will be necessary in any event.

4. Excessive taxes on wealth will cause a serious diminution of the incomes which are at present largely drawn upon for the support of educational and philanthropic enterprises. Moreover, these sources of support would be dried up precisely at the time when the need would be greatest.

5. Excessive taxation at the outset of the war will reduce the elasticity available for the increasing demands that are soon to come.

Great Britain's Policy. Take Great Britain as an example. During the first year of the war she increased taxes only slightly. In order to keep her finances going at top notch. During the second year she raised by new taxes only 9 per cent. of her war expenditures. During the third year she levied by additional taxes (over and above the pre-war level) only slightly more than 17 per cent. of her war expenses.

If we should attempt to do as much in the first year of the war as Great Britain did in the third year it would suffice to raise by taxation \$1,250,000,000. If, in order to be absolutely on the safe side, it seemed advisable to increase the sum to \$1,500,000,000, this should, in our opinion, be the maximum.

In considering the apportionment of the extraordinary burden of taxes in war times certain scientific principles are definitely established.

How Taxes Should Be Apportioned. (1) The burden of taxes must be

HOW SHALL WE PAY FOR THE WAR?

A Constructive Criticism on the House Revenue Bill.

LOANS BETTER THAN TAXES

Five Reasons Why Excessive Taxes at the Outset of War Are Disadvantageous—Great Britain Example Worthy of Emulation—How the Taxes Should Be Apportioned.

By EDWIN R. A. SELIGMAN, McVickar Professor of Political Economy, Columbia University.

On May 23, 1917, the House of Representatives passed an act "to provide revenue to defray war expenses and for other purposes." In the original bill as presented by the Committee of Ways and Means, the additional revenue to be derived was estimated at \$1,810,420,000. The amendment to the income tax, which was tacked on to the bill during the discussion in the House, was expected to yield another \$40,000,000 or \$50,000,000.

In discussing the House bill, two problems arise:

I. How much should be raised by taxation?

II. In what manner should this sum be raised?

I. How Much Should Be Raised by Taxation?

How was the figure of \$1,800,000,000 arrived at? The answer is simple. When the Secretary of the Treasury came to estimate the additional war expenses for the year 1917-18, he calculated that they would amount to some \$3,000,000,000, of which \$3,000,000,000 was to be allotted to the allies, and \$3,000,000,000 was to be utilized for the domestic purposes. Thinking that it would be a fair proposition to divide this latter sum between loans and taxes, he concluded that the amount to be raised by taxes was \$1,800,000,000.

There are two extreme theories, each of which may be dismissed with scant courtesy. The one is that all war expenditures should be defrayed by loans, and the other is that all war expenditures should be defrayed by taxes. Each theory is untenable.

It is indeed true that the burdens of the war should be borne by the present rather than the future generation; but this does not mean that they should be borne by this year's taxation.

Meeting all war expenses by taxation makes the taxpayers in one or two years bear the burden of benefits that ought to be distributed at least over a decade within the same generation.

In the second place, when expenditures approach the gigantic sums of present-day warfare, the tax-only policy would require more than the total surplus of social income. Were this absolutely necessary, the ensuing havoc in the economic life of the community would have to be endured. But where the disasters are, so great and at the same time so unnecessary, the tax-only policy may be declared impracticable.

Secretary McAdoo had the right instinct and highly commendable courage in deciding that a substantial portion, at least, of the revenues should be derived from taxation. But when he hit upon the plan of 50-50 per cent. of raising one-half of all domestic war expenditures by taxes, the question arises whether he did not go too far.

The relative proportion of loans to taxes is after all a purely business proposition. Not to rely to a large extent on loans at the outset of a war is a mistake.

Disadvantages of Excessive Taxes. The disadvantages of excessive taxes at the outset of the war are as follows:

1. Excessive taxes on consumption will cause popular resentment.

2. Excessive taxes on industry will disarrange business, damp enthusiasm and restrict the spirit of enterprise at the very time when the opposite is needed.

3. Excessive taxes on incomes will deplete the surplus available for investments and interfere with the placing of the enormous loans which will be necessary in any event.

4. Excessive taxes on wealth will cause a serious diminution of the incomes which are at present largely drawn upon for the support of educational and philanthropic enterprises. Moreover, these sources of support would be dried up precisely at the time when the need would be greatest.

5. Excessive taxation at the outset of the war will reduce the elasticity available for the increasing demands that are soon to come.

Great Britain's Policy. Take Great Britain as an example. During the first year of the war she increased taxes only slightly. In order to keep her finances going at top notch. During the second year she raised by new taxes only 9 per cent. of her war expenditures. During the third year she levied by additional taxes (over and above the pre-war level) only slightly more than 17 per cent. of her war expenses.

If we should attempt to do as much in the first year of the war as Great Britain did in the third year it would suffice to raise by taxation \$1,250,000,000. If, in order to be absolutely on the safe side, it seemed advisable to increase the sum to \$1,500,000,000, this should, in our opinion, be the maximum.

In considering the apportionment of the extraordinary burden of taxes in war times certain scientific principles are definitely established.

How Taxes Should Be Apportioned. (1) The burden of taxes must be

spread as far as possible over the whole community so as to cause each individual to share in the sacrifices according to his ability to pay and according to his share in the Government.

(2) Taxes on consumption, which are necessarily borne by the community at large, should be imposed as far as possible on articles of quasi-luxury rather than on those of necessity.

(3) Excises should be imposed as far as possible upon commodities in the hands of the final consumer rather than upon the articles which serve primarily as raw material for further production.

(4) Taxes upon business should be imposed as far as possible upon net earnings rather than upon gross receipts or capital invested.

(5) Taxes upon income which will necessarily be severe should be both differentiated and graduated. That is, there should be a distinction between earned and unearned incomes and there should be a higher rate upon the larger incomes. It is essential, however, not to make the income rate so excessive as to lead to evasion, administrative difficulties, or to the more fundamental objections which have been urged above.

(6) The excess profits which are due to the war constitute the most obvious and reasonable source of revenue during war times. But the principle upon which these war-profit taxes are laid must be equitable in theory and easily calculable in practice.

The Proposed Income Tax. The additional income tax as passed by the House runs up to a rate of 60 per cent. This is a sum unheard of in the history of civilized society. It must be remembered that it was only after the first year of the war that Great Britain increased her income tax to the maximum of 34 per cent., and that even now in the fourth year of the war the income tax does not exceed 42½ per cent.

It could easily be shown that a tax with rates on moderate incomes substantially less than in Great Britain, and on the larger incomes about as high, would yield only slightly less than the \$332,000,000 originally estimated in the House bill.

It is to be hoped that the Senate will reduce the total rate on the highest incomes to 34 per cent., or at most to 40 per cent., and that at the same time it will reduce the rate on the smaller incomes derived from personal or professional earnings.

If the war continues we shall have to depend more and more upon the income tax. By imposing excessive rates now we are not only endangering the future, but are inviting all manner of difficulties which even Great Britain has been able to escape.

Conclusion. The House bill contains other fundamental defects which may be summed up as follows:

(1) It pursues an erroneous principle in imposing retroactive taxes.

(2) It selects an unjust and unworkable criterion for the excess-profits tax.

(3) It proceeds to an unheard-of height in the income tax.

(4) It imposes unwarranted burdens upon the consumption of the community.

(5) It is calculated to throw business into confusion by levying taxes on gross receipts instead of upon commodities.

(6) It fails to make a proper use of stamp taxes.

(7) It follows an unscientific system in its flat rate on imports.

(8) It includes a multiplicity of petty and unlivable taxes, the vexatiousness of which is out of all proportion to the revenue they produce.

The fundamental lines on which the House bill should be modified are summed up here:

(1) The amount of new taxation should be limited to \$1,250,000,000—or at the outset to \$1,500,000,000. To do more than this would be as unwise as it is unnecessary. To do even this would be to do more than has ever been done by any civilized Government in time of stress.

(2) The excess-profits tax based upon a sound system ought to yield about \$500,000,000.

(3) The income-tax schedule ought to be revised with a lowering of the rates on earned incomes below \$10,000, and with an analogous lowering of the rates on the higher incomes, so as not to exceed 34 per cent. A careful calculation shows that an income tax of this kind would yield some \$450,000,000 additional.

(4) The tax on whisky and tobacco ought to remain approximately as it is, with a yield of about \$230,000,000.

These three taxes, together with the stamp tax at the low rate of the House bill, and with an improved automobile tax, will yield over \$1,250,000,000, which is the amount of money thought desirable.

The above program would be in harmony with an approved scientific system. It will do away with almost all of the complaints that are being urged against the present. It will refrain from taxing the consumption of the poor.

It will throw a far heavier burden upon the rich, but will not go to the extremes of confiscation. It will obviate interference with business and will keep unimpaired the social productivity of the community.

FORESTRY PROGRAM FOR PITTSBURGH MEETING

Fine Entertainment to Be Provided For Delegates to Big Conservation Congress.

The local committee of arrangements for the International Forestry Conservation Congress at Pittsburgh June 21 to 23 next has announced its program for the meeting, which will bring together the leading foresters and conservationists of the country. Thomas Liggett, general chairman, will call the congress to order at 9 a. m. on Thursday, June 21, in the auditorium of the Pittsburgh Chamber of Commerce. The delegates will be welcomed by Mayor Joseph G. Armstrong of Pittsburgh and by Frank J. Lannan, chairman of the convention committee of the chamber of commerce. The response will be made by Dr. Henry S. Drinker, president of the Pennsylvania Forestry association. Addresses will be made by Charles Lathrop Pack, president of National Emergency Food Garden Commission and of the American Forestry association; A. B. Farquhar, president of the Pennsylvania Conservation association, and Hon. Robert S. Conklin, commissioner of forestry of Pennsylvania.

In the afternoon the delegates will leave the headquarters at the Fort Pitt hotel for a motor trip over Pittsburgh's improved roads, with one or two stops to inspect points interesting as forestry propositions. They will visit the Country Lanes association of Susquehanna valley and return at 5:30. At 8 p. m. there will be an informal reception of visitors and delegates at the chamber of commerce. George M. Lehman, engineer of the Lake Erie and Ohio canal commission, will read a paper on "Forest Cover in Its Relation to Water Flow, Floods and Droughts." George H. Wirt, chief forest warden of Pennsylvania, will lecture on "Forest Fire Prevention," illustrated by the department of forestry film, "The Cause of the Forest."

At 9 a. m. Friday addresses will be delivered by Dr. Silbert Roth, professor of forestry of the University of Michigan; Professor H. E. Barnow of the University of Toronto, Canada; and Dr. Henry S. Drinker of the United States division of forestry. In the afternoon James L. Grimes, city forester, will give an open air lecture on "Shade Trees and Municipal Planting," visiting places of interest about the city.

At 8 p. m. Dr. J. T. Rothrock, president emeritus of the Pennsylvania association, will give an illustrated lecture, "Desolated Pennsylvania," and John M. Phillips will speak on "What the Forestry Association Can Do to Help Western Pennsylvania Secure Forest Areas."

Saturday, June 23, will be devoted to an excursion in a special train via the Baltimore and Ohio railroad to the forest areas of Laurel Ridge in Fayette county, Pa., with an al fresco luncheon.

STEEL FIRE LOOKOUT.

and gives the forester a view for many miles around. This picture is from the exhibit which will be shown at the Forestry Conservation Conference in Pittsburgh June 21 to 23 next.

NOTICE OF AMENDMENT OF CHARTER

Notice is hereby given that application will be made to the Public Service Commission of the Commonwealth of Pennsylvania by T. W. Phillips Gas and Oil Company of Butler, Pa., for a certificate of Public Convenience, authorizing the Commission's approval of an amendment of charter by enlargement of territory within which the company may purchase, purchase or otherwise acquire and own natural gas for other light, heat or both, or other purposes, and to have all the rights and privileges necessary or convenient thereto; so as to include the whole of the counties of Clearfield, Elk and Cameron in the State of Pennsylvania.

The public hearing on which will be held in the room of the Commission at Harrisburg on the 2nd day of June, 1917, at 2:30 o'clock A. M. when and where all persons in interest may appear and be heard if they so desire.

J. L. S. HENDON, Solicitor for Applicant

Tickets for the Schior play will be changed free of charge at Stewart's drug Store Saturday, Monday and Tuesday afternoons.

Liberty Loan Message To American Women

Every Woman in Clearfield County Should Read This Article

By Mrs. Antoinette Funk
Vice Chairman of the Woman's Liberty Loan Committee

Since the government has called upon the women to Give their sons for our country's life, the Woman's Liberty Loan Committee dares to call upon them to help Supply the money to sustain these sons.

Washington, June 8.—The purpose of the Liberty Loan is to give funds to the government so that it can conduct this war for liberty and democracy in an efficient manner. The quicker this money is supplied, the quicker will come the end of the war with its consequent saving of human life. The denominations of the bonds are as low as \$50 and the payments are easy. A subscriber can pay cash if she wants to, but she does not have to. A Liberty Bond should be in every home.

Because so far we have been remote from the scene of war, we are inclined like the foolish ostrich, to hide her head in the sand, not realizing, not believing, closing our eyes to the actual threats of danger that are here. No man liveth to himself alone and the time is here when no nation liveth to itself alone. We are bound up in the warp and woof of nations, a part of the fabric. The welfare of one is the welfare of all.

The gigantic struggle that has been going on in Europe for almost three years is not a struggle to settle boundaries, not to gain revenge for old disputes. It is a war to establish the right to life and liberty. It is a war against awfulness. It is a war against the savagery that sent the Lusitania to the bottom.

It is our notice served upon the world that the high seas are free to the world. It is a notice to the world that we and our neighbors in this hemisphere will not tolerate that the oppressor's foot be sent upon our shores. It is for the honor and safety of our women. It is for a safe and free home for our children. The only nation under the sun which was born a democracy is carrying her doctrine of democracy to the uttermost parts of the earth.

As women have always helped, they must help now. Their first great task is lending out of their fulness that the war of righteousness upon which America is now engaged shall result in a glorious past and a glorious freedom and that the generations that come after us may indeed call us blessed. Every woman's first duty is to buy a Liberty Loan Bond. It is a woman cannot buy a bond, it is her duty to persuade some other woman who can do so.

WOUNDED THREE TIMES, HE WANTS REVENGE

London, June 8.—Introducing Mr. Harry McMichael of Augusta, Ga. Mac has been strated thrice by the Kaiser's missiles, but he hasn't taken the count yet and all he wants is another shot at a spiked helmet.

Mac learned the game in the Second United States Cavalry. He joined the Fifteenth Canadian Battalion in June, 1915. A machine gun bullet hit his leg in the fall of that year. Back from the hospital, a shell fragment picked his brow as he went "over the top" in a charge.

Back once more from "blighty," Mac took a stretch and a yawn in view of the German trenches and a bullet bored his jaw, removing five teeth. Today, in the hospital, this soldier of the south is just getting on his feet again. He wants to join the Americans when they arrive—and his ear is eager for the welcome sound of "Dixie."

A century ago several Americans began the building of a submarine boat with an idea of using it in an attempt to rescue Napoleon from St. Helena.

LADIES! DARKEN YOUR GRAY HAIR

Use Grandmother's Sage Tea and Sulphur-Recipe and Nobody will Know

The use of Sage and Sulphur for restoring face, gray hair to its natural color dates back to grandmother's time. "She used it to keep her hair beautiful dark, glossy and attractive. Whenever her hair took on that faded, streaked appearance, this simple mixture was applied with wonderful effect.

But howing at home is money and out of date. Nowadays by adding at any drug store for a 50 cent bottle of Wyeth's Sage and Sulphur Compound you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well known downtown druggist says it darkens the hair so naturally and evenly that no one can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after a few applications or two, it becomes beautifully dark and glossy.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

MAURICE McLAUGHLIN WILL COME BACK AT TENNIS

By H. C. Hamilton
(United Press Staff Correspondent)

New York, June 7.—From the Pacific Coast comes the news that Maurice McLaughlin, the red-haired comet of tennis, is on his way back to New York. Picking out a doubles contest in which McLaughlin, with some help from Willis Davis, downed William M. Johnston and Wallace Strachan, the coast fans have been praising the former unbeatable champion until their throats must ache.

Reports of Mac's return to form must be taken with something of a grain of salt. His feat in winning, almost single handed, the doubles match spoken of doesn't mean an awful lot. He virtually performed the same thing a year ago at Forest Hills here, but failed when he started against the stars in the singles contest.

McLaughlin was so good in the best days of his career and is so different now that a comparison between the two is something almost impossible. When a fan sees Mac streak along for a short time with his fierce drives and speedy return shots from unbelievable angles he immediately loses all control of his emotion and pronounces McLaughlin on the way back.

There isn't a tennis fan in the United States who wouldn't like to see McLaughlin's sorell tresses again adorned with the national crown. There never was a more popular athlete in any branch of sport than the red-headed tennis streak. But to say that McLaughlin has reached the heights he once attained probably is overdoing it. It is hard to believe he has accomplished what he failed in doing a year ago after making such a brilliant showing in doubles play.

Undoubtedly the praise he has received and the satisfaction he must have gained in being able to down a former national champion in Johnston will be a most impelling thing in sending Mac to try his hand at the game again next fall on the Forest Hills courts. He can't win a championship this year, for there will be no such thing, but he can find out if he is ready.

The foundry at Crusot, where the great guns for the French army and navy are made, was started 80 years ago by a family named Schneider. Today the plant rivals in size the famous Krupp works at Essen.

Young Man Shot From Ambush While Riding Along The Highway

Harry Hudson and Allen Wrigley Have Terrifying Experience While Enroute To Wrigley Mine This Morning

BULLET ENTERED LOWER PART OF BACK

A mysterious shooting affray occurred near the forks of the road below the Robert Wrigley homestead in Lawrence township this morning and as a result Harry, the 20 year old son of Mr. and Mrs. James Hudson, Sr., of Lawrence township, is a patient in the Clearfield hospital suffering from a serious gun shot wound in the back.

Young Hudson, who is employed by Allen Wrigley as a miner in one of his mines on the Wrigley farm, was going to his work this morning riding in a buggy with his employer. Just as the buggy reached the forks of the road above the Leitinger country place the report of a gun was heard and a bullet struck Hudson in the lower part of the back and penetrated the pelvis.

The grating in the back of the buggy from the seat to the lower edge of the cushion is about six

inches high and the bullet passed through one of the openings in the grating.

The shooting occurred about 6:45 o'clock and as it was very foggy at this time the occupants of the buggy were unable to see who did the shooting nor from whence the bullet came.

Mr. Wrigley turned his rig around and drove the injured young man to the office of Dr. Stewart where first aid was rendered and he was then taken to the Clearfield hospital. It will be some time before the extent of his injuries are known but his wounds are considered quite serious.

The shooting is a mystery and the injured man said he had no known enemies and is at a loss to account a motive for the same if the shooting was intentional. He also said he had heard a shot shortly before the one which wounded him, but Mr. Wrigley says he heard but the one shot.

RED CROSS IS LOCAL RED MEN ARE GOING TO ALTOONA

Enthusiastic Meeting Held and Standing Committees Named By Permanent Chairman

RED CROSS WEEK 18 TO 25

A rousing meeting of the Clearfield Chapter Pennsylvania Red Cross was held in the auditorium of the High School yesterday afternoon at which time formulative plans were laid for the organization of branches throughout this district.

Hon. J. Frank Snyder, Chairman of the Clearfield Chapter, presided, outlining his experience at the National War Council held a short time ago at Washington. He went into detail as to the origin of this wonderful organization; the work it has accomplished in past wars; of the almost superhuman efforts that have been exerted in the present conflict; and what the members could expect in a tentative way as their share of the vast amount of work to be done.

A communication was read from the Board of Directors of the Clearfield hospital wherein they made application for the formation of a hospital unit for active service and a request to the chairman to select a director for the unit, the choice to be between Drs. S. C. Stewart and S. J. Waterworth. The matter was referred to the National Chapter for decision.

The formation of branches was gone over thoroughly and resolutions were offered and accepted for the formation of chapters at the following places: Arkthaus, Madera, Houtzdale, Woodland, Irvona, Coalport and Grampian. The question of jurisdiction of the Clearfield chapter has been amicably settled with the Moshannon chapter of Philipsburg and the DuBois chapter mainly through the efforts of Chairman Snyder, who has done a large amount of work since his appointment.

Mrs. R. D. Swoope of Curwensville, then announced that the Curwensville Chapter desired to come into the organization under the direction of the Clearfield Chapter and her statement that our little sister town already boasted of a membership of about 125 and had a healthy treasury condition brought a hearty round of applause from the assemblage.

The chairman then announced his committee appointments which will necessarily be large on account of the vast amount of work to be done and named the following as an executive committee: Hon. Allison O. Smith, H. F. Bigler, W. J. Usher, Richard Gilbert, H. B. Powell, A. K. Wright, J. P. O'Laughlin, Chas. T. Kurtz, M. J. Overly, W. I. Betts and J. C. Barclay. The finance committee which on account of the rules of the national chapter must be composed of men connected with banking institutions was named as follows: H. B. Powell, A. W. Lee, Sr., Jas. Mitchell, of Clearfield; G. D. Benn, Coalport; C. S. Russell, Curwensville and B. W. McCracken, Mahaffey.

The following were selected as representatives from the local chapter to attend the meeting at Harrisburg to be held on Thursday next: Mrs. A. O. Smith, Clearfield; Mrs. R. D. Swoope, Curwensville; Mrs. A. B. Mosser, Mahaffey; Mrs. G. B. Shively, Woodland. The question of funds and membership was discussed and explained by the chairman who outlined the plans of the national chapter for the observance of Red Cross week, to be held June 18th to 25th inclusive, when one hundred million dollars is to be raised and the membership greatly strengthened. It was stated that the United States, with her one hundred millions of population could only muster about two hundred and fifty thousand members of the Red Cross where other countries showed membership of anywhere from one to two millions.

During this Red Cross week the work will be done by teams acting under the direction of captains and they will wage a thorough campaign for funds and membership. It was also stated that anyone contributing one dollar automatically became a member of the organization. The meeting then closed subject to call of the chairman.

Last evening Chairman Snyder went to Curwensville and organized an active branch with an initial membership of 150. Mrs. R. D. Swoope was elected president and other

State Convention Will Be Occasion for Running Special Train To The Mountain City

TRIBE HERE IS PROSPERING

The state convention of the Red Men will be held at Altoona next Wednesday and a large crowd are preparing to go from Clearfield to the convention. A special train will leave here at 7:30 a. m. on the P. R. R. and special rates have been provided by the railroad company. Tickets must be bought in advance of Wednesday in order to take advantage of the special rates. They are now on sale at the Dooley Drug store. Of course tickets can be bought up until the last minute but it will materially assist the committee if you will order your ticket not later than Saturday evening. The special train will leave Altoona at 9:30 p. m. on Wednesday evening.

The local tribe Chinolaclamoos No. 407, is enjoying a great period of tribal prosperity. At a meeting last evening sixty new members were initiated which brings the membership up to almost five hundred. Nearly two hundred enjoyed a sumptuous banquet at their meeting place at the Mechanics hall last evening after the initiatory ceremony last evening.

The general public is invited to the state convention at Altoona next Wednesday.

Hustid And Clark Are Dismissed By Goethals

Dismissal Comes as Sequel to Attacks on the General

(By United Press) Washington, June 7.—The differences between the men who were to build the ships for the Allies came to a sudden stop today when General Goethals discharged H. E. Hustid, assistant manager of the United States Emergency Fleet corporation and F. H. Clark.

Goethals' action followed grumbling as to the building of vessels which was to have been completed several weeks ago. Last night Hustid and Clark issued formal statements attacking Goethals.

BIDS ON COURT HOUSE REPAIRS

The county commissioners opened bids for the repairing of the court house at noon today. They were as follows:

General Contract	
Beeman & Anderson	\$5992
F. B. Hewitt	\$3683
Heating and Plumbing	
Kittlerberger Bros.	\$3056
Heating	680
Plumbing	680
E. W. Webster	\$3350
Heating	880
Plumbing	880

After opening the bids an adjournment was taken until 11 o'clock tomorrow at which time the contract will no doubt be awarded.

GIRL DROWNED AT SMOKE RUN

Ruby Prespock, a 19 year old girl who lived with her parents at Smoke Run, this county left her home at 6 o'clock yesterday morning for the purpose of driving the family cow home from a neighboring field. She failed to return and a searching party discovered her body lodged under some driftwood in a small stream in the cowfield at 6 o'clock last evening. The recent rains had greatly raised the run and the girl had evidently fallen from a log while attempting to cross and was drowned.

Squire Ruffner, of Madera, held a coroner's inquest and a verdict of accidental death was returned.

MECHANICS LEAVE CLEARFIELD

Round House Foreman P. A. Kuhn, Assistant Foreman W. D. Dixon and A. C. Reed of the N. Y. C. shop force left today by auto for their new positions with the Cambria and Indiana railroad in Cambria county.

ment women of the town were enthusiastically received into the organization.

Pershing And Staff Landed At Some British Port Early This A. M. Without Announcement

FIRST U. S. REGULARS LAND IN FRANCE

Washington, June 7.—One hundred naval aviators to aid in detecting submarine activities and other additional troops arrived safely in France today. These are the first officers and men of the regular fighting force to land.

Bulgarian Thinks U. S. Army Will Turn Trick

Looks for Turkey to be Heaviest Loser at End of Conflict

By Arthur E. Mann
Stockholm, June 8.—"If the war lasts a sufficient length of time for America to send an army to Europe I believe the tide will turn against Germany," was the frank expression of Dr. Sakaroff, a member of the Bulgarian parliament and one of the Socialist delegates to the conference here. "The Bulgarian Socialists are just as good internationally as those of other countries," he said, referring to charges of imperialism against the Central Power representatives here. Although against war since the beginning we were not of sufficient strength to prevent war any more than the proletariats who have to bear the heaviest cost of the conflict. I believe Turkey will be the heaviest loser, her territory will be taken from her and she will become a vassal of Germany after the Serbs and Roumanians will suffer. I believe Serbia should include all the land inhabited by the Serbian people. Roumania should return Dobruja."

'Tis a Rocky Road From Philipsburg

"Coming Full of Rye" Popular Ballad These Evenings

There is a carnival showing at Philipsburg this week and large numbers of our sportily inclined young men have been making nightly pilgrimages to the tawdry shrines of the hula hula and hoochamocooch artists. In order to swallow the show the visitors found it necessary or made it necessary to swallow divers and sundry other things with a faculty for going down easily but which failed to taste as good coming up as they did going down. The result of all this high living in war times has been apparent to all those who, taking their lives in their hands, dared to venture out upon the highway connecting our town and the Centre county metropolis.

Every morning a buzz wagon or two has been found by lying on trees or telephone poles along the roadway, while it is said that the entire route has been a mecca for junk peddlers today, as our automobile editor informs us (and he is quite truthful—sometimes) that anywhere from three to six different machines were wrecked, busted or demolished twice here and the burg last night.

There have been many near accidents but thus far all have managed to come through with whole hides, and as the dod-busted carnival only has two nights to run yet we are hoping to get away without any casualties, but if we do we'll be going some.

Going to Altoona Wednesday? Get your ticket at Dooley's Drug Store.

K. OF C. BUYS LIBERTY BONDS

Clearfield Council, Knights of Columbus at their meeting last night voted to purchase \$400 worth of Liberty Loan Bonds, besides making a contribution of \$25 to the Clearfield Chapter of the Red Cross and \$25 to the Belgian Relief Fund.

FORMER CLEARFIELD GIRL DIED

D. W. Young, of Glen Richey, was in town this morning en route to Aurora, Ill., to attend the funeral of his sister, Maggie, who died at her home in Montana yesterday. The funeral will be held from the home of her sister Mrs. John James in Aurora.

The Coast Artillery school at Fort Monroe, Va., had its beginning as far back as 1824.

Expresses Surprise That The World Did Not Know He Had Left The U. S. Will Arrive at London 3 P. M.

NO ANNOUNCEMENT MADE ABOUT TROOPS

By Frank Getty
At Some British Port, June 8.—Major General John J. Pershing, commander of the first American expeditionary force to France, arrived in England accompanied by his staff today.

He reported a pleasant trip and was astonished that his arrival was such a surprise. "I thought the whole world knew I was leaving the United States," he declared. The American army chief and his staff were accorded a tremendous ovation upon their arrival. A special train met them and they expect to be in London by three o'clock this afternoon.

"We are very glad to be the standard bearers of our country in this great war for Liberty," said General Pershing. "We expect soon to be playing our part—and I hope it is a very large part—on the western front. They reported the voyage as uneventful. No submarines were encountered and no mines were seen. The weather was good, and the sea smooth.

American destroyers conveyed the vessel all the way over. They were met 100 miles out from the Irish coast by British convoys. The vessel arrived at 8:30 this morning. At the dock guards of honor stood rigid at attention as the band played "The Star Spangled Banner." British army and naval officers greeted the party. As Pershing descended the gang plank he formally inspected a group of British soldiers in the reception party, and stopping a moment to talk to one of the guards he noticed stripes on the sleeve of a soldier who had been wounded twice. Pershing asked the why and wherefore of the stripes and wounds. When the American general and his staff landed the band played "God Save the King." After the formal ceremonies General Pershing was greeted by American and British newspaper men answering their questions cheerfully and readily.

Corp. Frank Bannon Is Doing Police Duty

Clearfield Lad on The Border Helps To Run Down Bootleggers

The following taken from a border newspaper tells of the attempt to enforce the army prohibition order and the part played by Frank Bannon, a Clearfield member of the regulars.

Although seven intoxicated soldiers have been arrested since Sunday night, when the local authorities undertook to aid in the enforcement of the new law prohibiting the sale of liquor to soldiers in uniform, it is believed they got their liquor from "bootleggers" rather than saloonmen. So far as the police authorities have been able to discover the saloonmen are obeying the law.

Three of the soldiers facing this charge were picked up Thursday night on the West Side by Police Captain Brown and Sergeant Ogletree and Corporal Frank Bannon of the military police. One of the men so arrested was recognized as an old offender who, prior to joining the army, lived in San Antonio. Another soldier, dressed in civilian clothes instead of his uniform, contrary to the new military order, also was arrested Thursday night.

G. N. Ellenberger Hurt By Runaway Horse

Will be Laid up for Several Days as Result of the Accident

G. N. Ellenberger is confined to his home on West Market street suffering from severe injuries received when his horse frightened and ran away last evening. The accident occurred near the stable late last night. In attempting to quiet the restless animal Mr. Ellenberger was knocked down and the wagon ran over him. His legs below the knees were badly cut and bruised and it will be several days before he is able to be about.

The horse was caught by a couple of members of Company I at the Market street bridge. Very little the worse for his escapade, but the wagon was pretty badly used up.

Special train to Altoona Wednesday. Get ticket at Dooley's Drug store.

DR. MAYO MAKES SNAPPY SPEECH AT NEW YORK

New President National League Of Physicians Explodes Theory Of Alcohol As A Medicine

MEDICOES WELCOME DRY LAW

Dr. Charles H. Mayo, of Rochester, Minn., was inducted into office as President of the American Medical Association in the grand ballroom of the Waldorf-Astoria, New York City, Tuesday evening, June 5th.

Three thousand physicians and surgeons, with a scattering of their women folk, filled the floor space, packed the three galleries and overflowed into the wide corridors.

By its applause this audience, which stood for the best in medical and surgical science in the United States, and the voice of which may be accepted as expressing the majority opinion of the associations 80,000 members, put the stamp of its approval on the following assertions of the great surgeon from Minnesota made in his installation speech:

"Alcohol's only place now is in the arts and sciences. National Prohibition would be welcomed by the medical profession.

"Our country should secure a medical Cabinet officer in the near future.

"Our great task now is to propagate and train bacteria to be man's true slaves.

"More good will come of tongue control than from birth control.

"Medicine has become now nearly an exact science.

"The war has been followed by a hysterical demand to lower the standards of education of physicians. A lowering of the standards must not be permitted. If we ever needed educated men, it is right now."

Dr. Mayo's speech followed addresses of welcome by Dr. Wendell C. Phillips, Chairman of the Committee on Arrangements; Dr. Alexander Lambert, President of the State Medical Society, and Prof. Walter B. James, President of the New York Academy of Medicine.

In leading up to his approval of prohibition, Dr. Mayo said:

"We must aid in all that will elevate the general standard of and conserve the American citizen. Prohibition is a war measure the value of which is beyond discussion. Medicine has reached a period when alcohol is rarely employed as a drug, being displaced by better remedies.

Harbison-Walker Helps Employes Buy Bonds

Men Will Avail Themselves of The Opportunity to Help the War

The Harbison-Walker Refractories company has subscribed for a one million dollar block of the Liberty Loan and are offering half of it to their employes on the partial payment plan. They will sell the bonds outright but the following method outlined on their announcement is one of merit. It really gives the employee a \$50 bond for \$40 and a \$100 bond for \$98.

We think it more important that you subscribe for as many bonds as you can conveniently pay for in monthly payments deducted from your pay. We have therefore figured out what to us seems a very simple plan, by which on signing a blank subscription for a \$100.00 bond, authorizing us to deduct from the following month's pay the first payment of \$10.00 and from each of the eleven following months pay \$8.00, making a total of \$98.00 paid in the course of the year, we will deliver this bond to you on receipt of the last payment. This is allowing interest compounded at the rate of 4 per cent. If after making several payments you should not be able to complete the same, we will return whatever money has been paid plus interest at 4 per cent.

A \$50.00 bond may be bought in the same manner as above by making a first payment of \$5.00 and deducting from each of the eleven following months' pay \$4.00, making a total of \$49.00 paid in the course of the year. We would much prefer that you subscribe for a bond in the above manner than to draw your savings out of the bank and purchase one, although you can, if you wish, do both. Drawing your savings from the bank deprives it of money to loan others for the same purpose. It is the employee who subscribes for a bond and pays for it out of additional savings who is doing the most good.

HAVE CONTRACTED FOR 161 WOODEN SHIPS

Washington, June 7.—The Shipping board announced today that contracts for 161 wooden ships had been awarded within the last ten days.

From Britain's Official War Cook-Book

Fish Cutlets—Cooked fish of any kind, in an equal quantity of cooked rice or barley, one teaspoonful of butter or margarine to each cupful of the mixture. Season to taste. Pound the fish and mix it with the cereal while warm. When cold shape into cutlets and fry.

PRACTICAL PATRIOTISM

Getting Behind the Armed Forces is as Necessary as Getting in Them

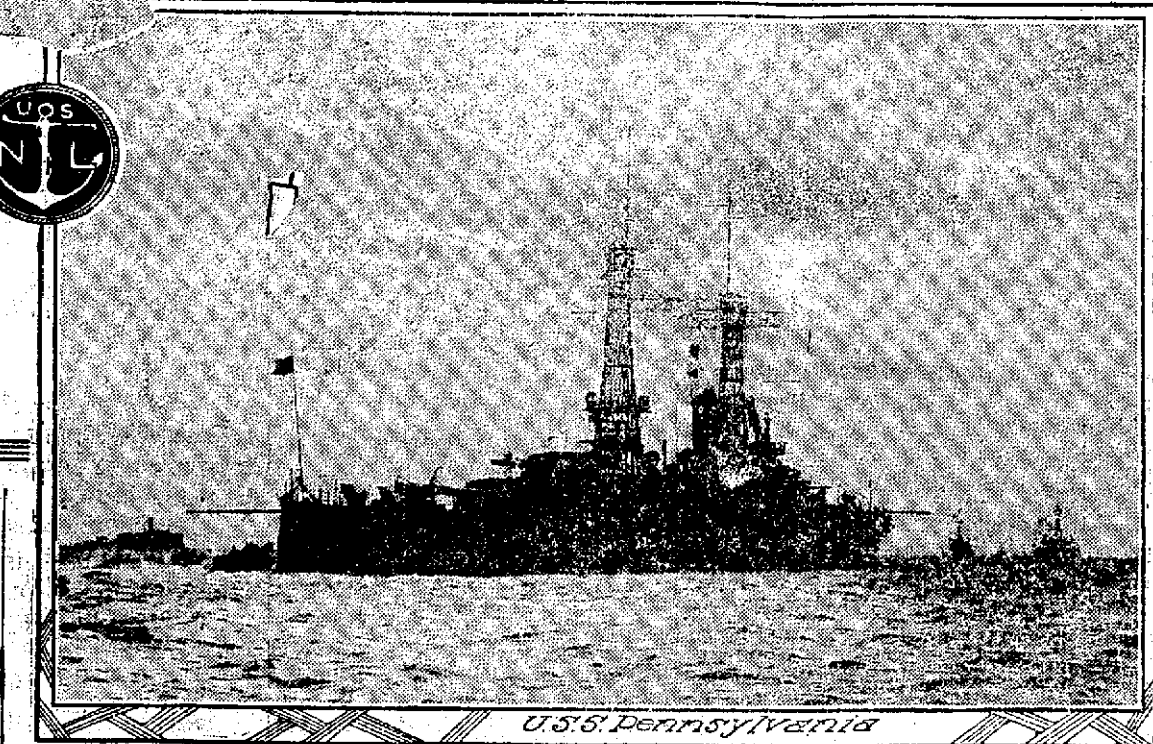

The Opportunity for Real National Service for Those Who Want To Work Offered By the Navy League.

PRACTICAL PATRIOTISM is the need of the hour. What your Uncle Sam needs today are men and women who WANT TO WORK.

Every man and woman can do his or her bit toward giving the nation victory in this war. Not every one is wanted to shoulder a rifle at the front or to join the naval forces. The man who stays at home at the lathe or behind the plow and works harder and better than he ever did before in his life because he wants to see the U. S. A. win this war is every inch a patriot to whom the thanks of the nation are due.

President Wilson proposes to see to it that these men are thanked and honored for patriotic spirit and work. If you can't be in the armed forces of your country in this war you can be behind them and the fighting power of the Navy and Army depends upon this support behind them, given by every man and woman in the land. Never before in any war has so much attention been given to

U.S.S. Pennsylvania

the organization of the forces at home, the man power and woman power of the nation.

The task of organizing these forces is, however, an extremely difficult one. There are hundreds of thousands of patriotic men and women in the country today anxious to do their "bit" for their country who do not know where to fit themselves in. "What can I do to serve my country?" is a question on the lips of thousands of Americans today.

An Opportunity For Service. The Navy League of the United States offers an answer to that question for every man and woman by affording them an opportunity for patriotic service in support of the United States Navy.

The need of the services being rendered by Navy League members has been acknowledged by Secretary of the Navy Josephus Daniels, and the thanks of the entire naval service.

A naval recruiting officer recently wrote: "I wish to thank the Navy League of Kansas City, and each of its members for the splendid patriotic work that has been done in this city in obtaining such an abundance of recruits for the Navy in time of vital need. I think that the thanks of the entire Navy, of Kansas City, Missouri, and of myself are due you to the fullest and heartiest extent, and that you may feel that you have rendered your country a most valuable service in time of war."

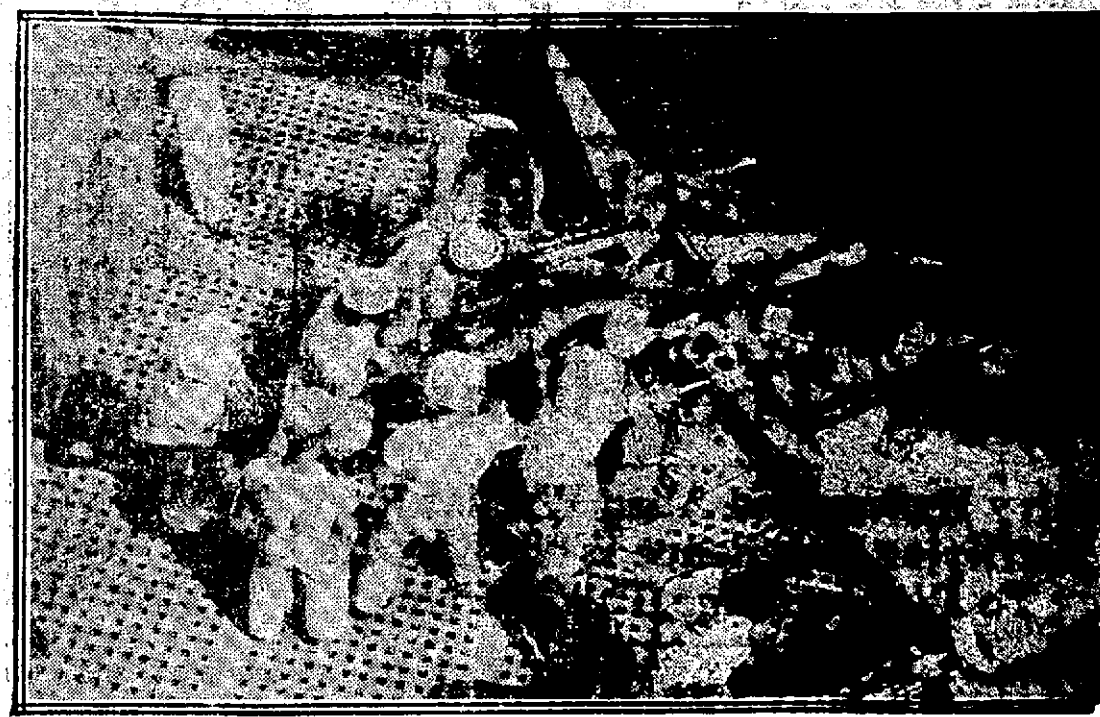

Navy Needs Recruits. The Navy is now seeking 50,000 additional recruits. All of these men will be volunteers. The conscript law does not apply to the Navy which is exclusively a volunteer service. To get these recruits provides opportunity number one for men and women who WANT TO WORK. Recruiting requires more than the service of recruiting officers. It requires co-operation on the part of men and women of every community.

Opportunity number two is offered to women to make comfort garments for the men of the fleet. These are not supplied by the Navy Department, and Secretary Daniels has officially welcomed the assistance of the League in this work.

In this democracy of ours naval policies must rest upon the broad foundation of public opinion. Therefore, it is a duty of citizenship to know the Navy, to keep in touch with it, to be familiar with its functions and its needs.

If there is an organization in your city devoting itself to this patriotic work the opportunity is offered you to get behind the Navy and do your "bit."

If there is no such organization, the higher opportunity is offered you to become a moving spirit in the formation of one. The Navy League from

A Gun of the Torpedo Defense Battery on the Superstructure of a Battleship

its headquarters at Washington will help you do this.

How To Organize. A simple and practical plan of organization for such work in any community is as follows:

Get together a citizen's organization of men and women who WANT TO WORK. This will serve as the central organization with officers as president, vice-president, secretary and treasurer.

The president should be a man whose name carries weight in the community. The vice-president should be chosen for the same qualifications. The treasurer should be a man in whom the public has implicit confidence. The secretary should be an energetic young man enthusiastic for the cause who is willing and able to shoulder a heavy burden as the executive officer in coordinating and guiding the work of all sub-committees.

To carry on a recruiting campaign organize the following sub-committees:

Finance. Speakers, Press, Picture Shows, Music and Drum Corps, Automobiles, sub-stations and a Women's Committee. These committees should be composed of as few persons as possible, one person frequently being enough.

The Finance Committee collects funds to carry on the work. Let it make a thorough campaign among business and professional people for aid.

The Press Committee should consist of one thoroughly alive and experi-

enced newspaper man who will supply all newspapers with news—not views—of what the League organization is doing.

The Music and Drum Corps Committee would do well to seek out schools which have bands or drum corps organizations. Bands are expensive. Oftentimes an old soldier or a boy's drum corps can be found to volunteer its services. Even a single drummer will attract attention at a recruiting station. Buglers do the same. They are invaluable.

Open Sub-Stations.

Sub-stations should be opened in all important parts of the city. They should be on the street floors of buildings or in tents pitched in the street. Decorate your sub-stations and call attention to them in every way possible. Ask the local recruiting officer to put a uniformed man at each station, to talk the Navy from a practical viewpoint. Put women at the sub-stations. They always encourage enlistment.

Work with your moving picture theatres to show Navy films and slides. Keep the Navy in all motion picture houses all the time. Get in touch with your film exchanges and see what they can do for you.

Get a good list of speakers who know how to talk for the Navy. Book them at picture shows and every public meeting where they can be heard.

Get people to volunteer the use of their motor cars for recruiting work to visit factories and outlying towns. Confer with your recruiting officer on

the use of them. Use auto trucks, decorated with a group of bayonet fixed to the front of the car. Have your car decorated with the Navy League emblem. Get your members to join the Navy now.

Recruit Getting Month. Get ex-service men to tell you how to talk the Navy. They will find them without out ribbons or badges to women whose relatives are in the service. Have the read, "My brother (uncle, band, or father) is serving" in the Navy. In power every woman enlisted to do it. Get your members to part of their advertising in Navy.

Every woman in every can help in the work of our warm garments for the Navy when they see the anti-submarine patrol work. See how they are supplied in our own workshop now in the Navy. Those who cannot visit for others to work on either join the League or your city or else you can organize. Navy League in many cities have offered navigation classes. Officers at the camps for midshipmen. The Navy League wants to know the Navy, to keep it with it, and to keep the community in close touch with the nation's first line of defense.

Dainty Waists for Women

Such Pretty Waists, Too, And Where Is The Woman Who Ever Has Enough? You Can Come Nearer Than Ever If You Will Come Here And See How Many Pretty Ones You Can Get For A Very Little Outlay

They are made of excellent materials and some are fussy; some are plain but they each and every one are a great value for the money. Made of crepe lawn, voiles and many other desirable fabrics. There's one in particular that's an excellent value at the value price but we have marked it at 79c

This is the Last Call for Summer Millinery

We have been selling out a lot of these hats but there's still some left and they have to go. We have made the prices so low that you are missing something if you pass this chance up. We have sport hats and the more conservative shapes.

They are Priced so Low That the Values are Enormous

CHILDREN'S GINGHAM TUB DRESSES

Made of the best quality of gingham and piped in a contrasting color these make admirable school dresses for warmer days. They solve the dress problem for the mother who is at her wits end to have her little girl look nice at a small expenditure.

Sizes 2 to 6 years, a \$1 value for . . 69c
Sizes 8 to 14 years, a \$2 value for \$1.25

CHILDREN'S WHITE LAWN DRESSES

Made of a good quality of lawn. Some are sash trimmed and all are trimmed with either lace or embroidery. These will make a dressy little frock for summer wear for the little ones.

Sizes 4 to 6 years a \$2 value for . . \$1.39

Sizes 8 to 14 years, \$3.50 value for \$2.45

JUNIOR DRESSES AT HALF PRICE

These are made of white material and are fancily trimmed. They would be bargains at regular prices but at the reduced price at which we have marked them they are extraordinary good values.

SPLENDID ARRAY OF WOMEN'S MUSLINWEAR

Germans War On The French Blood and Race

Inborn Hate Shown by Statement Of Officer to French Mayor

By Wilbur S. Forrest

(United Press Staff Correspondent)
Paris, June 7.—"We are not making war solely against the French army and French territory but against Frenchmen generally, your women, children and everything that belongs to the French blood and race."

This is what the German commanding officer in Noyon told Senator Noel, mayor of Noyon, before the Germans sacked the town. Shortly before the destruction began, the commander summoned Noel and demanded that he name specific instances of senseless atrocities and vandalism committed by the Kaiser's troops.

Noel put in 15 minutes—the time allowed—naming instance after instance with full details. The crimes charged included rape, burglary, assault, arson and murder.

After having listened, the commander excused such conduct by saying his countrymen were warring against "French blood and race." One of the instances cited was the case of little Andre Labot, a child who was beaten with a cane for failing to salute an officer, then forced to salute a dummy draped with a German uniform until he fell exhausted, and finally bayoneted and killed.

The United States army operates schools for bakers and cooks at Washington Barracks, Washington, D. C., the Presidio, Monterey, Cal.; Fort Sam Houston, Texas and Fort Shafter, Hawaii. The personnel of a bakery company totals 61 men. Operating twelve ovens, such a company will supply bread for 24,000 men. With an army in the field it is located from 20 to 60 miles behind the front lines.

MOTORCYCLES

You can now buy a light weight motorcycle at a light weight price. The S. M. C. "Get About" is built right and stays right. Ask for demonstration.

Geo. M. Cohan's Greatest of Musical Comedies

"The Man Who Owns Broadway"

Will Play the

New Rowland Theatre

PHILIPSBURG

Monday Night, June 11

Manager A. J. Fleckenstein of the Rowland Theatre, Philipsburg, has announced that the theatre will play its first state attraction on the night of June 11th, he having secured the Geo. C. Cohan production of Geo. M. Cohan's musical comedy, "The Man Who Owns Broadway." The performance of this section will be given a chance to see and the most tuneful of the Cohan shows. The company consists of a cast and chorus of forty and a phony Orchestra of 14 under the direction of Davis. During the intermission the orchestra render a symphony concert. Mr. Geo. Ream, late cornetist with Sousa and Conway will play a solo with Wm. Langham, cellist, who was with the New York production of "The Birth of a Nation." The cast will be an adequate one while the scenic and electrical effects will be a surprise.

The seat sale will open at the box office of Rowland Friday morning, June 8th and Mr. Fleckenstein requests that those who wish to attend secure their seats early. Mail orders accompanied by cash or money orders will be filed in the order of their receipt.

GIVE AND TAKE

The spirit of true sportsmanship has been fostered in the United States until we are internationally known as a good natured lot who are good losers and stand for fair play. The principle of give and take is applied in as well as in the baseball game where the umpire is to cover up a bad decision by another that will even score. American financiers by the dozen have been made to make and lose several fortunes in their short life but with each loss they smile away their loss and grim determination set about to build again on the ruins.

Now we are called upon to play the game of give and take with our government. Heretofore it has been a one sided game and the umpire has been playing on our side. Tariffs on imports and taxes on various commodities have been paying a large part of our government expenses. All we paid was the small amount of taxes levied on the running of our state and local government, the of which went to the upkeep of our public schools, highways, etc., from which we get value for our money. We enjoy rights and privileges such as no nation ever dreamed of. We are citizens and not subjects of our rulers. Every man finds a haven on our shores, not because of license or special privilege but because our constitution grants the right without any questions being asked. We have been playing the "take" part of the game with our state and every congressional district getting all out of the Federal government that they could without giving any material thing in return.

In return for our privileges we should accept without murmur any taxes imposed to guarantee these blessings to us and our posterity. Taxation may be an evil but it is better to pay it to Uncle Sam and help win the war than to let Germany in indemnities which we would be compelled to pay in case of defeat. No one can comprehend what would mean. Wealth alone would not suffer. It would suffer the least and the laboring man would have to pay a larger share of his earnings to satisfy the blood and power lust of the Teutonic race. Wealth would be confiscated by the Germans. Not only the accumulated wealth but the very wages of our army of workers.

There is a little side issue to this give and take game. It can be turned into a great asset to the nation. It requires only a little calm consideration of the matters involved to see where and how business can be kept on the go. Work can be made plenty for everybody and every man can get from the money being spent in the war. Uncle Sam is borrowing two billion dollars from his people. We can give it to him although that is the general way of financing. We simply loan it to him. We give assistance; that is all, and we take his I. O. U. in the form of a bond for it. That is all there is to the giving and there is very little to that for Uncle Sam pays us interest on what we loan him. Now for the taking. To begin with we take the interest but the biggest item is our share in the national property we are now enjoying and which the loan help to keep going. That two billion dollars of your money will all be spent in the United States for food, guns, equipment for the army and navy and before six months it will filter back to all of us in the form of wages and salaries. The floating of the loan simply turns two billion of dollars loose in the channels of commerce and industry. We give Uncle Sam the use of our money and he uses it with it. That is the sum and substance of the transaction when we get away from the staggering financial and financial method of talking about the Liberty

SUFFERED 20 YRS. NOW FINDS RELIEF

Tried Remedy After Remedy Without Avail Until Master Medicine Brought Relief

"Tanlac has done more for me than anything I ever used, and I have tried everything during the twenty years I suffered," says Emeraet G. Richmond, foreman at Small's Flour & Feed Warehouse, York, Pa.

"I had stomach, bowel and nervous trouble," he continued, "I had no appetite and got no good out of my food. This so weakened that I was attacked by neuritis and oh! the agony I suffered from these distressing, burning pains that would shoot through every nerve in my body. Sometimes it got through the day."

"I tried remedy after remedy, I guess I tried about everything that held out the slightest hope of relief but none of them did me a particle of good. I was desperate—I felt that I could not stand it much longer. On day I read about Tanlac and I tried myself—I've tried all the others so I'll see if this will help me."

"And it did! It helped me from the very first. I felt better and better with each dose until today I hardly know myself."

"I am going to stick to Tanlac, for already those neuralgic pains have left me. My stomach is in such a condition that I can eat anything and I feel well and vigorous all over."

Tanlac, the Master Medicine, is now sold here by Woodward & McPherson.

NOTICE TO ALL PERSONS WHO FAILED TO REGISTER ON JUNE 11TH

Governor Brumbaugh gives notice that Pennsylvania will extend the time to those who failed to register on June fifth. Persons between the ages of 21 and 31 may register without prosecution until Saturday June ninth inclusive. After which time proceedings will follow.

Any person having failed to register should at once register with the County Registration Board, at the Court House at Clearfield, Pa.

Well Known Man in The Banta Refrigerator Office Uses Goldline After Two Years of Suffering

Mrs. Curtis Bloom of Olanta is Bidding Goodby to Backache and Kidney Trouble by the Goldline Method

Mr. W. D. McBride living at 121 Nichols street, well known clerk in the office of the Banta Refrigerator company, was ailing for two years with acid stomach. In fact he has been so bad that he lost the sense of taste. He was troubled with gas, bloating and a sort of nervous dyspepsia. Ask Mr. McBride what he thinks of Goldline.

Mrs. Curtis Bloom, of Olanta, well known in that section has for the past year been troubled severely with her kidneys and back. She had headaches in the back of her head, with dizziness and catarrh. She took cold easily and would cough and spit up a

great deal. She was short of breath, had palpitation of the heart and rheumatism in her back and shoulders. It also settled in her muscles and joints. She had a pain over her liver, her skin was sallow, tongue coated and stomach bloated with gas, severely constipated; had lame back and lumbago. Also, had bladder trouble which interrupted her rest at night. Her hands and feet would go to sleep and her muscles would twitch. She would have weak and tremble spells and her nerves were awfully bad. Ask her what she thinks of Goldline.

Don't forget Skewart's at Clearfield and Wrigley's at Curwensville are the only places to get Goldline.

PENNSYLVANIA RAILROAD

URGES EVERYONE TO QUICKLY GET ON WATER WAGON

Drink glass of hot water before breakfast to wash out poisons.

To see the tinge of healthy bloom in your face, to see your skin get clearer and clearer, to wake up with out a headache, backache, coated tongue, or a nasty breath, in fact to feel your best, day in and day out, just try inside bathing every morning for one week.

Before breakfast each day drink a glass of real hot water with a teaspoonful of limestone phosphate in it as a harmless means of washing from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and toxins, thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderful in its effect. It cleans out all the sour fermentations, gases and acidity and gives one a splendid appetite for breakfast.

A quarter pound of limestone phosphate will cost very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, sweetens and freshens the skin, so hot water and limestone phosphate act on the blood and internal organs. Those who are subject to constipation, bilious attacks, acid stomach, rheumatic twinges, those whose skin is sallow and complexion pallid, are assured that one week of inside bathing will have them both looking and feeling better in every way.

FORESTRY CONGRESS TO MEET IN PITTSBURGH

International Conservation Meeting Is Scheduled For Sessions June 21-23.

An international forestry conservation congress, bringing together the leading foresters of the world, will be held in Pittsburgh, June 21 to 23 next. The meeting will be held under the auspices of the convention committee of the Chamber of Commerce of Pittsburgh. The sessions will be held in the auditorium of the new Chamber of Commerce building, where in exhibit of the meeting will be given by the director of the forest service of the United States.

The congress will be held concurrent with the annual midsummer meeting

Charles Lathrop Pack.

of the Pennsylvania Forestry association but the discussions will be international in scope. Charles Lathrop Pack, president of the American Forestry Association and of the National Emergency Food Garden Commission will be one of the principal speakers. A. B. Lathrop, president of the Pennsylvania Conservation Association, Dr. Gilbert Keith professor of forestry of the University of Michigan, Professor B. E. Fernow of the University of Toronto and Dr. Joseph L. Rothrock, president emeritus of the Pennsylvania Forestry Association are among those who will have a leading part in the program. Dr. Henry S. Drinker, president of the Pennsylvania association will preside.

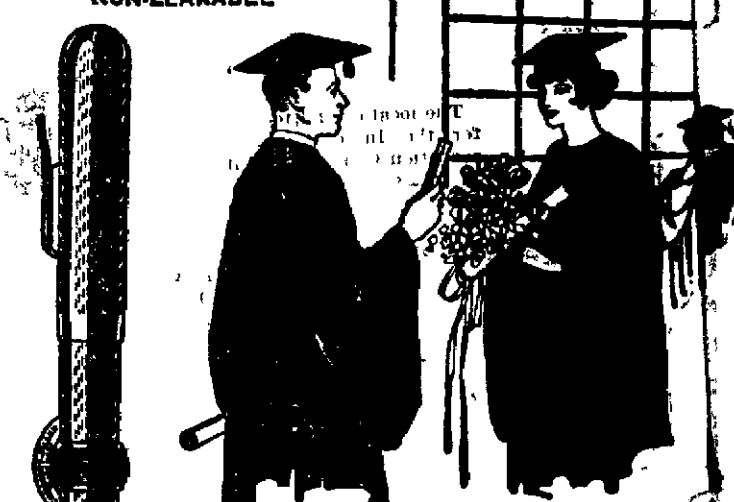

Many of the leading foresters in the eastern states will attend. The headquarters will be at the Fort Pitt Hotel and the sessions of the congress will be held during the forenoon and evening of June 21 and 22. The sessions of these days will be devoted to the discussion of the forestry of the United States and the places of interest. On Saturday the delegates and their friends will be taken on an excursion via a special train to the Forest Hills on Laurel Road, leaving at 10 A. M. The excursion will end at 4 P. M. and the day in the woods.

SECOND ST. CLEARFIELD, PA.

CURWENSVILLE

Mildred Shaffer, Blanche and Maud Graham left today for Green Lake, Wisconsin to spend the summer vacation. They intend to go by the way of Buffalo and will visit friends in Chicago.

Mrs. Fred Wilson, of Clearfield, visited her parents, Mr. and Mrs. George Daugherty on South Side yesterday.

Mrs. H. B. Hile and son William Wednesday in DuBois with her mother Mrs. Garrison, it being her 79th birthday. Mrs. Garrison is well known in Curwensville, having lived here for some time.

Mrs. Orvis Thompson has returned home from a visit to Williamsport.

Raymond Bloom, son of J. Roll Bloom has enlisted in the U. S. navy at League Island, Philadelphia.

A lot of town people never knew they had German blood until it broke out in the form of measles.

Roll Draucker, formerly of Curwensville, now residing at Smithfield, N. D. is visiting relatives and old acquaintances in town. Mr. Draucker was called to Cleveland to attend the funeral of his brother C. C. Draucker who met his death in head-on collision as fireman on a B. & O. train. His brother Thomas M. of Punksutawney also attended the funeral.

Mrs. Ernest Aughenbaugh has been on the sick list for several days at her home on South Side.

Attend the community Chautauqua, June 20-24.

B. E. McDivitt and family have moved from South Side to Renova.

Mrs. McDowell, of Clearfield is visiting her son Ashley P. McDowell at Nant.

Mrs. Arthur Robison, of Punksutawney, was a recent visitor to the home of her parents Mr. and Mrs. John Myers on South Side. She also visited other relatives in town.

Mrs. Fred, Stockbridge of McKees Rocks, visited her mother-in-law Mrs. Henry Stockbridge this week.

George Twigg, of Philipsburg called on friends in town yesterday.

Hon. Chas E. Patton and family arrived in town from Harrisburg yesterday for the summer.

Elizabeth Curtin left yesterday for an extended visit with her sister Margaret at Curtin, Pa.

C. H. Miller, now of Sullivan Sweater company, Philadelphia, formerly of Cham company returned to town yesterday as a salesman after 15 years absence.

The people of Patton addition and Bailey road feel that inasmuch as they are included in borough taxation they are entitled to borough protection, and appeal to the fairness of council for the establishment of a fire plug, the last one being at Call's store on Filbert street.

Remember the food sale by the ladies of the Baptist church Saturday afternoon in the room formerly occupied by Frank H. Davis the plumber.

WALLACETON

Mr. and Mrs. Wm. Stempffly and children, and Mr. and Mrs. Francis Bortoff motored to Philipsburg Monday evening and attended the carnival showing there this week.

Mr. and Mrs. Elliot Appleton, of Akron, Ohio, visited here over Sunday. The former returned to his place of duty on Monday and the latter left on Tuesday on a visit to relatives at Mill Run, Bradford.

Clair Smith was a week end visitor at Manson.

C. I. Wolfe, S. L. Reon and Pat Turner, the latter is a Scranton boy who has been here visiting relatives, enjoyed an auto ride to Philipsburg on Sunday.

Grover Johnson was here the other day from Philipsburg.

Bill Twoey had business at Clearfield on Saturday.

Wm. Hynd, Harry and Wavel Knepp have just recently purchased new Overland touring cars.

A few of the boys who are employed at the Elk Run Fire Brick plant at Renova inform us that they are making good money like the place and intend to keep their present positions.

Nello Gilpatrick, Roy and George

**You'll not
have fragrant
Coffee by merely
using
Egg Shells!**

THE method of making has not all to do with the goodness of coffee. What goes into the coffee pot counts. Put Golden Sun in and you'll pour out clear coffee of richest flavor that'll be satisfying, full-bodied and of penetrating fragrance. Cut by a special process, it is entirely free from chaff, hence economical. No premiums. Only sold by grocers.

THE WOODSON SPICE CO.
Toledo, Ohio

**Golden

Coffee**

Johnson, Ed. McQuillen and Ray Hill motored to Philipsburg for a little pleasure trip Monday.

Miss Jane Westwood from Philipsburg was a visitor here Monday.

Arthur Smith is on the sick list, attended by our home physician Dr. Buzard.

Mr. and Mrs. M. W. Sherry, of Clearfield, after a few days vacation spent with friends and relatives at Syracuse, Elmira and Corning, N. Y., stopped off to call on relatives in our city before returning home.

Ray Hall, Al Foster and Roy Johnson attend the carnival at Philipsburg on Tuesday evening.

The borough is putting in a new bridge at the end of the borough line composed of three foot sewer pipe which they expect will do away with the continual bother with this same place.

Mr. and Mrs. Dan Warren were looking over the sights at the burg on Tuesday.

William Johnson, Jr., and Ben Miligan have received orders to report to their machine gun troop stationed at Bealeburg, Centre Co., Pa. for 3 days drill. When they will take a lesson in trench warfare under the direction of Lieutenant Boals' brother, who has been at the front in Europe with the French army. This Co. is the only mounted machine gun troop in the state. They saw service on the Texas border during Gen. Pershing's hunt for Villa. Our two boys will leave here on Friday, morning for Bealeburg, Pa.

With potatoes at \$5 per bushel and flour \$1.00 per sack, we sometimes scratch our heads where the hair ought to grow.

A few of our boys expect to go to Renova to work next week.

The brick works are booming and no one idle in our city.

The V. T. Co. store manager has leveled off the surplus ground accumulated from excavating and has planted flowers which gives a taste of color to this end of the business.

Alvan Beish is the smiling daddy of a new baby. We are not informed as to the sex but pappa Alvan is glad any how.

GRAMPIAN

Miss Sara Bloom is in Indiana, Pa. for this week.

Mr. and Mrs. Murray Spencer and Mrs. Amelia Spencer were visiting in DuBois on Sunday.

M. E. aid met at Mrs. Mary Bonnell's Tuesday.

Sergeants Warren A. Donaldson and Walter Haas, and Private Charles Weinberger were visitors at E. A. Spentner's Wednesday and Thursday.

Mrs. Fred Flegal of Altoona visited relatives at Hepburnia a few days the past week.

Sergeant Walter Haas spent Wednesday evening at Miss Vinnie Spentner's.

Condite, the explosive used in many of the most powerful guns, is a mixture of nitrocellulose and gun-cotton, with a small percentage of vasellina.

LEITZINGER BR

LIKE ELECTRIC
BUTTON ON TOES

Tells why a corn is so painful and says cutting makes them grow

Press an electric button and you form a contact with a live wire which rings the bell. When your shoes press against your corn it pushes its sharp roots down upon a sensitive nerve, and you get a shock of pain.

Instead of trimming your corn, which merely makes them grow, just step into any drug store and ask for a quarter of an ounce of freezone. This will cost very little but is sufficient to remove every hard or soft corn or callus from one's feet. A few drops applied directly upon a tender, itching corn stops the soreness instantly, and soon the corn shrivels up so it lies right out, root and all, without pain. This drug is harmless and never inflames or even irritates the surrounding tissue or skin.

GLASS OF SALTS
CLEANS KIDNEYS

If your Back hurts or Bladder bothers you, drink lots of water.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours the ystrain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounce set Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to clean and stimulate clogged kidneys, also to neutralize the acids in urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink. Everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

The howitzer is the modern representative of the mortar, being a short, light gun, capable of firing a heavy shell at a low velocity.

Lyddite, the explosive used in the most deadly of all shells, takes its name from the English village of Lydd, where it was first made.

Minler's Antiseptic Oil Known As

Snake Oil

Will Positively Relieve Pain In Three Minutes

Try it right now for Rheumatism, Neuralgia, Lumbago, sore, stiff and swollen joints, pains in the head, back and limbs, corns, bunions, etc. After one application pain almost disappears as if by magic. A new remedy used internally and externally for Coughs, Colds, Croup, Sore Throat, Diphtheria and Tetanus. This oil is considered to be the most powerful remedy known. Its prompt and immediate effect in relieving pain is due to the fact that it penetrates to the affected parts of one. As an illustration, pour two drops of the thickest piece of sole leather, and it will penetrate it in substance through and through in three minutes. Accept no substitute. This great oil is golden red color only. Every bottle guaranteed 25c, 50c and \$1.00 per bottle, or money refunded. For sale by Dr. J. H. Duggan, Clearfield, Pa.

FORESTRY PROGRAM FOR PITTSBURGH MEETING

Fine Entertainment to Be Provided For Delegates to Big Conservation Congress.

The local committee of arrangements for the International Forestry Conservation Congress at Pittsburgh June 21 to 23 next has announced its program for the meeting which will bring together the leading foresters and conservationists of the country. Thomas Liggett, general chairman, will call the congress to order at 9 a. m. on Thursday, June 21, in the auditorium of the Pittsburgh Chamber of Commerce. The delegates will be welcomed by Mayor Joseph G. Armstrong of Pittsburgh and by Frank J. Laramie, chairman of the convention committee of the chamber of commerce. The response will be made by Dr. Henry S. Drinker, president of the Pennsylvania Forestry association. Addresses will be made by Charles Lathrop Pack, president of National Emergency Food Garden Commission and of the American Forestry association; A. B. Farquhar, president of the Pennsylvania Conservation association; and Hon. Robert S. Conklin, commissioner of forestry of Pennsylvania.

In the afternoon the delegates will have the headquarters at the Fort Pitt hotel for an automobile trip over Pittsburgh, improved roads, with one or two stops to inspect points of interest as forestry propositions. They will visit the Country Lanes association of Susquehanna valley and return at 5.30. At 8 p. m. there will be an informal reception of visitors and delegates at the chamber of commerce. George M. Lehman, engineer of the Lake Erie and Ohio canal commission, will read a paper on "Forest Cover in Its Relation to Water Flow, Floods and Droughts." George H. Witt, chief forest warden of Pennsylvania, will lecture on "Forest Fire Prevention," illustrated by the department of forestry film, "The Cause of the Forest."

At 9 a. m. Friday addresses will be delivered by Dr. Elbert Roth, professor of forestry of the University of Michigan; Professor R. E. Fernow, of the University of Toronto, Canada; and Dr. Henry S. Graves, of the United States division of forestry. In the afternoon James L. Grimes, city forester, will give an open air lecture on "Shade Trees and Municipal Planting," visiting places of interest about the city.

At 8 p. m. Dr. J. T. Rodrock, president emeritus of the Pennsylvania association, will give an illustrated lecture, "Desolated Pennsylvania," and John M. Phillips will speak on "What the Forestry Association Can Do to Help Western Pennsylvania Secure Forest Areas."

Saturday, June 23, will be devoted to an excursion in a special train via the Baltimore and Ohio railroad to the forest areas of Laurel Ridge in Fayette county, Pa., with an al fresco luncheon.

STEEL FIRE LOOKOUT.

This is the forest fire warden's periscope. It stands on high ground in Pennsylvania's state forest preserves

Steel Lookout Tower.

and gives the forester a view for many miles around. This picture is from the exhibit which will be shown at the Forestry Conservation Conference at Pittsburgh June 21 to 23 next.

NOTICE OF AMENDMENT OF CHARTER

Notice is hereby given that application will be made to the Public Service Commission of the Commonwealth of Pennsylvania by T. W. Phillips Gas and Oil Company of Butler, Pa., for a certificate of Public Convenience, authorizing the Commission's approval of an amendment of charter by enlargement of territory within which the company may produce, mine, purchase, or otherwise procure and store natural gas for other than domestic, both, or other purposes, and to have all the rights and privileges necessary or convenient thereto; so as to include the whole of the counties of Clearfield, Elk and Cameron in the State of Pennsylvania.

The public hearing on which will be held in the rooms of the Commission at Harrisburg, on the 22nd day of June, 1917, at 9:30 o'clock A. M., when and where all persons in interest may appear and be heard if they so desire.

T. C. CAMPBELL, Solicitor for Applicant.

Liberty Loan Message To American Women

Every Woman in Clearfield County Should Read This Article

By Mrs. Antoinette Funk
Vice Chairman of the Woman's Liberty Loan Committee

Since the government has called upon the women to Give their sons for our country's life, the Woman's Liberty Loan Committee dares to call upon them to help Supply the money to sustain those sons.

Washington, June 8.—The purpose of the Liberty Loan is to give funds to the government so that it can conduct this war for liberty and democracy in an efficient manner. The quicker this money is supplied, the quicker will come the end of the war with its consequent saving of human life. The denominations of the bonds are as low as \$50 and the payments are easy. A subscriber can pay cash if she wants to, but she does not have to. A Liberty Bond should be in every home.

Because so far we have been remote from the scene of war, we are inclined like the foolish ostrich, to hide her head in the sand, not realizing, not believing, closing our eyes to the actual threats of danger that are here. No man liveth to himself alone and the time is here when no nation liveth to itself alone. We are bound up in the warp and woof of nations, a part of the fabric. The welfare of one is the welfare of all.

The gigantic struggle that has been going on in Europe for almost three years is not a struggle to settle boundaries, not to gain revenge for old disputes. It is a war to establish the right to life and liberty. It is a war against savagery. It is a war against the savagery that sent the Lusitania to the bottom.

It is our notice served upon the world that the high seas are free to the world. It is a notice to the world that we and our neighbors in this hemisphere will not tolerate that the oppressor's foot be sent upon our shores. It is for the honor and safety of our women. It is for a safe and free home for our children. The only nation under the sun which was born a democracy is carrying her doctrine of democracy to the uttermost parts of the earth.

As women have always helped, they must help now. Their first great task is lending out of their fullness that the war of righteousness upon which America is now engaged shall result in a glorious past and a glorious freedom and that the generations that come after us may indeed call us blessed. Every woman's first duty is to buy a Liberty Loan Bond. It is a woman cannot buy a bond, it is her duty to persuade some other woman who can do so.

WOUNDED THREE TIMES, HE WANTS REVENGE

London, June 8.—Introducing Mr. Harry McMichael of Augusta, Ga. Mac has been strated thrice by the Kaiser's missiles, but he hasn't taken the count yet and all he wants is another shot at a spiked helmet.

Mac learned the game in the Second United States Cavalry. He joined the Fifteenth Canadian Battalion in June, 1915. A machine gun bullet hit his leg in the fall of that year. Back from the hospital, a shell fragment picked this brow as he went "over the top" in a charge.

Back once more from "blighty," Mac took a stretch and a yawn in view of the German trenches and a bullet bored his jaw, removing five teeth. Today, in the hospital, this soldier of the south is just getting on his feet again. He wants to join the Americans when they arrive—and his ear is eager for the welcome sound of "Dixie."

A century ago several Americans began the building of a submarine boat with an idea of using it in an attempt to rescue Napoleon from St. Helena.

LADIES! DARKEN YOUR GRAY HAIR

Use Grandmother's Sage Tea and Sulphur Recipe and Nobody Will Know

The use of Sage and Sulphur for restoring faded gray hair to its natural color dates back to grandmother's time. "She used it to keep her hair beautiful dark, glossy and attractive. Whenever her hair took on that faded or streaked appearance, this simple mixture was applied with wonderful effect."

But brewing at home is messy and out of date. Nowadays by asking for any drug store for a 50 cent bottle of Wyeth's Sage and Sulphur Compound you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well known downtown druggist says it darkens the hair so naturally, and evenly that no one can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after noticeable replication or two, it becomes beautifully dark and glossy.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended to cure the cure, mitigation or prevention of disease.

MAURICE McLAUGHLIN WILL COME BACK AT TENNIS

By H. C. Hamilton
(United Press Staff Correspondent)

New York, June 7.—From the Pacific Coast comes the news that Maurice McLaughlin, the red-haired comet of tennis, is on his way back to new fame. Picking out a doubles contest in which McLaughlin, with some help from Willis Davis, downed William M. Johnston and Wallace Strachan, the coast fans have been praising the former unbeatable champion, until their throats must ache.

Reports of Mac's return to form must be taken with something of a grain of salt. His feat in winning, almost single handed, the doubles match spoken of doesn't mean an awful lot. He virtually performed the same thing a year ago at Forest Hills here, but failed when he started against the stars in the singles contest.

McLaughlin was so good in the best days of his career and is so different now that a comparison between the two is something almost impossible. When a fan sees Mac streak along for a short time with his fierce drives and speedy return shots from unbelievable angles he immediately loses all control of his emotion and pronounces McLaughlin on the way back.

There isn't a tennis fan in the United States who wouldn't like to see McLaughlin's sorrell tresses again adorned with the national crown. There never was a more popular athlete in any branch of sport than the red-headed tennis streak. But to say that McLaughlin has reached the heights he once attained probably is overdoing it. It is hard to believe he has accomplished what he failed in doing a year ago after making such a brilliant showing in doubles play.

Undoubtedly the praise he has received and the satisfaction he must have gained in being able to down a former national champion in Johnston will be a most impelling thing in sending Mac to try his hand at the game again next fall on the Forest Hills courts. He can't win a championship this year, for there will be no such thing, but he can find out if he is ready.

The foundry at Crusot, where the great guns for the French army and navy are made, was started 80 years ago by a family named Schneider. Today the plant rivals in size the famous Krupp works at Essen.

Gossip for Tonight's Tea Table

Rev. Father M. J. Renshan was a Clearfield visitor today.

Dr. H. H. Lewis of Surveyor, passed through town today on his way home from a business trip to the western side of the county.

Mrs. Carrie Smith left this evening for Indiana to visit her daughter Evelyn, who is a student at the Normal there.

Mrs. R. D. Swoope, of Curwensville attended the Red Cross meeting here yesterday.

Mrs. A. O. Smith, of Clearfield, Mrs. G. B. Shivery, of Woodland, Mrs. R. D. Swoope, of Curwensville, and Mrs. Mosser, of Mahaffey were appointed to attend the Red Cross conference at Harrisburg next week.

Mrs. A. L. Cole arrived home last evening from a month's visit in Youngstown, Ohio, where she has been visiting her son Newton Cole and family on her way home from spending the winter in California.

Mrs. G. B. Shivery of Woodland, attended the Red Cross Meeting here yesterday.

Albert Wright Jr. left this morning on a business trip to Philadelphia. Mrs. Wright and son Dick accompanied him as far as Coatesville, where they will visit relatives.

Aaron Dowler left today for Patchville where he will work on a farm this summer.

Miss Betty Weaver is home from Bryn Mawr College to spend the summer vacation.

Al Eismann and Ed Morris, of DuBois motored to Clearfield last evening and spent the evening.

Melvin Neff, who has been attending the University of Pittsburgh at Pittsburgh, is home to spend a few weeks vacation with his parents Mr. and Mrs. Woods Neff on Nichols street.

John Graham of Girard was transacting business here yesterday.

Oscar Coudriet of Covington attended to business in town yesterday and today.

Misses Christina and Martha Keirn of Moshannon are visiting with friends in town.

A. L. Edwards of Osceola was in town on business yesterday.

Will Pascoe attorney of Tyrone, transacted business here yesterday.

W. F. Wink of Curwensville, had business here yesterday.

Miss Agnes Row of Philipsburg spent the day in Clearfield.

Misses Blanche and Maud Graham of Curwensville and Alfred Graham left this morning for Green Lake, Wis., where they will spend the summer.

Mrs. J. Rougeux, of Niagara spent the day in Clearfield on her way to visit at her home in Frenchville.

John McGaughey of Glen Richey, was in town on business yesterday.

Miss Nora Pyles, Mrs. William Wing and Mrs. Hartshorn, of Curwensville were shoppers here yesterday.

Miss Lou Holden of Curwensville was in town shopping this morning.

Mrs. Mary McNaull and sister were visitors here today.

Francis Etzweiler and Lloyd Owens attended the dance in Houtzdale last evening.

Mrs. Chester Fugate of Mahaffey, attended the Red Cross meeting here yesterday.

Mrs. K. Wrigley of Curwensville, spent yesterday shopping here.

I. W. Best of Coudley was in town on business today.

Mrs. A. M. Thatcher who is a pneumonia patient in the Clearfield

ON THE SCREEN

"THE GUN FIGHTER" HAS WM. S. HART AS STAR

"The Gun Fighter," with William S. Hart as its star, will be seen at the Tent Friday. This is the latest Triangle play featuring the celebrated delineator of Western roles. In its production Hart is seen as the head of a gang of outlaws, whose proudest boast of the number of tenants in his "private graveyard," until he meets a young girl who tells him to his face that he is a cold blooded murderer and not fit to associate with civilized people. A terrific conflict follows in the soul of the bad man, with good finally triumphant, and the outlaw sacrifices his life for the girl who has shown him to himself in his true colors.

Hart's leading woman in "The Gun Fighter" is Margery Wilson, who has been seen in a number of noteworthy roles for Triangle, among them leading roles with Hart in "The Return of Draw Egan" and "Truthful Tulliver," with Charles Ray in "The Honorable Algy" and with Frank Keenan in "The Sin Ye Do" and "The Bride of Hate."

"THE GATES OF EDEN" Divine's Drama of Shaker Life Has Viola Dana as a Star

A drama of life in a Shaker community, written by the Rev. William E. Dafforth and with Viola Dana as the star, is "The Gates of Eden" a five reel Metro-Columbia feature which will be seen at the Globe theatre tomorrow.

Miss Dana, youngest of motion picture stars, has two roles in this powerful production, first appearing as Evelyn, a scorned mother and next as Eve, her daughter. The story contains strong love elements and gives the young star ample opportunity to display her emotional abilities.

Supporting Miss Dana are Augustus Phillips, Robert Walker, Edward Earle, Grace E. Stevens, Fred Jones and Harry Linson. John H. Collins, who directed the production, declares it is one of the strongest and most beautiful pastoral dramas he has produced for the screen.

One of the first submarines constructed by John P. Holland was built in 1881 on order of the Fenian Brotherhood, which hoped to destroy with it the British navy.

There are two extreme theories, each of which may be dismissed with scant courtesy. The one is that all war expenditures should be defrayed by loans, and the other is that all war expenditures should be defrayed by taxes. Each theory is untenable.

It is indeed true that the burdens of the war should be borne by the present rather than the future generation; but this does not mean that they should be borne by this year's taxation.

Meeting all war expenses by taxation makes the taxpayers in one or two years bear the burden of benefits that ought to be distributed at least over a decade within the same generation.

In the second place, when expenditures approach the gigantic sums of present-day warfare, the tax-only policy would require more than the total surplus of social income. Were this absolutely necessary, the ensuing havoc in the economic life of the community would have to be endured. But where the disasters are so great and at the same time so unnecessary, the tax-only policy may be declared impracticable.

Secretary McAdoo had the right instinct and highly commendable courage in deciding that a substantial portion, at least, of the revenues should be derived from taxation. But when he hit upon the plan of 50-50 per cent. of raising one-half of all domestic war expenditures by taxes, the question arises whether he did not go too far.

The relative proportion of loans to taxes is after all a purely business proposition. Not to rely to a large extent on loans at the outset of a war is a mistake.

Disadvantages of Excessive Taxes. The disadvantages of excessive taxes at the outset of the war are as follows:

1. Excessive taxes on consumption will cause popular resentment.

2. Excessive taxes on industry will disarrange business, damp enthusiasm and restrict the spirit of enterprise at the very time when the opposite is needed.

3. Excessive taxes on incomes will deplete the surplus available for investments and interfere with the placing of the enormous loans which will be necessary in any event.

4. Excessive taxes on wealth will cause a serious diminution of the incomes which are at present largely drawn upon for the support of educational and philanthropic enterprises. Moreover, these sources of support would be dried up precisely at the time when the need would be greatest.

5. Excessive taxation at the outset of the war will reduce the elasticity available for the increasing demands that are soon to come.

Great Britain's Policy. Take Great Britain as an example. During the first year of the war she increased taxes only slightly. In order to keep her finances going at top notch. During the second year she raised by new taxes only 9 per cent. of her war expenditures. During the third year she levied by additional taxes (over and above the pre-war level) only slightly more than 17 per cent. of her war expenses.

If we should attempt to do as much in the first year of the war as Great Britain did in the third year it would suffice to raise by taxation \$1,250,000,000. If, in order to be absolutely on the safe side, it seemed advisable to increase the sum to \$1,500,000,000, this should, in our opinion, be the maximum.

In considering the apportionment of the extraordinary burden of taxes in war times certain scientific principles are definitely established.

How Taxes Should Be Apportioned. (1) The burden of taxes must be

HOW SHALL WE PAY FOR THE WAR?

A Constructive Criticism on the House Revenue Bill.

LOANS BETTER THAN TAXES

Five Reasons Why Excessive Taxes at the Outset of War Are Disadvantageous—Great Britain Example Worthy of Emulation—How the Taxes Should Be Apportioned.

By EDWIN R. A. SELIGMAN, McVickar Professor of Political Economy, Columbia University.

On May 23, 1917, the House of Representatives passed an act "to provide revenue to defray war expenses and for other purposes." In the original bill as presented by the Committee of Ways and Means, the additional revenue to be derived was estimated at \$1,810,420,000. The amendment to the income tax, which was tacked on to the bill during the discussion in the House, was expected to yield another \$40,000,000 or \$50,000,000.

In discussing the House bill, two problems arise:

I. How much should be raised by taxation?

II. In what manner should this sum be raised?

I. How Much Should Be Raised by Taxation?

How was the figure of \$1,800,000,000 arrived at? The answer is simple. When the Secretary of the Treasury came to estimate the additional war expenses for the year 1917-18, he calculated that they would amount to some \$3,000,000,000, of which \$3,000,000,000 was to be allotted to the allies, and \$3,000,000,000 was to be utilized for the domestic purposes. Thinking that it would be a fair proposition to divide this latter sum between loans and taxes, he concluded that the amount to be raised by taxes was \$1,800,000,000.

There are two extreme theories, each of which may be dismissed with scant courtesy. The one is that all war expenditures should be defrayed by loans, and the other is that all war expenditures should be defrayed by taxes. Each theory is untenable.

It is indeed true that the burdens of the war should be borne by the present rather than the future generation; but this does not mean that they should be borne by this year's taxation.

Meeting all war expenses by taxation makes the taxpayers in one or two years bear the burden of benefits that ought to be distributed at least over a decade within the same generation.

In the second place, when expenditures approach the gigantic sums of present-day warfare, the tax-only policy would require more than the total surplus of social income. Were this absolutely necessary, the ensuing havoc in the economic life of the community would have to be endured. But where the disasters are so great and at the same time so unnecessary, the tax-only policy may be declared impracticable.

Secretary McAdoo had the right instinct and highly commendable courage in deciding that a substantial portion, at least, of the revenues should be derived from taxation. But when he hit upon the plan of 50-50 per cent. of raising one-half of all domestic war expenditures by taxes, the question arises whether he did not go too far.

The relative proportion of loans to taxes is after all a purely business proposition. Not to rely to a large extent on loans at the outset of a war is a mistake.

Disadvantages of Excessive Taxes. The disadvantages of excessive taxes at the outset of the war are as follows:

1. Excessive taxes on consumption will cause popular resentment.

2. Excessive taxes on industry will disarrange business, damp enthusiasm and restrict the spirit of enterprise at the very time when the opposite is needed.

3. Excessive taxes on incomes will deplete the surplus available for investments and interfere with the placing of the enormous loans which will be necessary in any event.

4. Excessive taxes on wealth will cause a serious diminution of the incomes which are at present largely drawn upon for the support of educational and philanthropic enterprises. Moreover, these sources of support would be dried up precisely at the time when the need would be greatest.

5. Excessive taxation at the outset of the war will reduce the elasticity available for the increasing demands that are soon to come.

Great Britain's Policy. Take Great Britain as an example. During the first year of the war she increased taxes only slightly. In order to keep her finances going at top notch. During the second year she raised by new taxes only 9 per cent. of her war expenditures. During the third year she levied by additional taxes (over and above the pre-war level) only slightly more than 17 per cent. of her war expenses.

If we should attempt to do as much in the first year of the war as Great Britain did in the third year it would suffice to raise by taxation \$1,250,000,000. If, in order to be absolutely on the safe side, it seemed advisable to increase the sum to \$1,500,000,000, this should, in our opinion, be the maximum.

In considering the apportionment of the extraordinary burden of taxes in war times certain scientific principles are definitely established.

How Taxes Should Be Apportioned. (1) The burden of taxes must be

spread as far as possible over the whole community so as to cause each individual to share in the sacrifices according to his ability to pay and according to his share in the Government. (2) Taxes on consumption, which are necessarily borne by the community at large, should be imposed as far as possible on articles of quasi-luxury rather than on those of necessity. (3) Excises should be imposed as far as possible upon commodities in the hands of the final consumer rather than upon the articles which serve primarily as raw material for further production. (4) Taxes upon business should be imposed as far as possible upon net earnings rather than upon gross receipts or capital invested. (5) Taxes upon income which will necessarily be severe should be both differentiated and graduated. That is, there should be a distinction between earned and unearned incomes and there should be a higher rate upon the larger incomes. It is essential, however, not to make the income rate so excessive as to lead to evasion, administrative difficulties, or to the more fundamental objections which have been urged above. (6) The excess profits which are due to the war constitute the most obvious and reasonable source of revenue during war times. But the principle upon which these war-profit taxes are laid must be equitable in theory and easily calculable in practice.

The Proposed Income Tax. The additional income tax as passed by the House runs up to a rate of 60 per cent. This is a sum unheard of in the history of civilized society. It must be remembered that it was only after the first year of the war that Great Britain increased her income tax to the maximum of 34 per cent., and that even now in the fourth year of the war the income tax does not exceed 42½ per cent.

It could easily be shown that a tax with rates on moderate incomes substantially less than in Great Britain, and on the larger incomes about as high, would yield only slightly less than the \$332,000,000 originally estimated in the House bill.

It is to be hoped that the Senate will reduce the total rate on the highest incomes to 34 per cent., or at most to 40 per cent., and that at the same time it will reduce the rate on the smaller incomes derived from personal or professional earnings.

If the war continues we shall have to depend more and more upon the income tax. By imposing excessive rates now we are not only endangering the future, but are inviting all manner of difficulties which even Great Britain has been able to escape.

Conclusion. The House bill contains other fundamental defects which may be summed up as follows:

(1) It pursues an erroneous principle in imposing retroactive taxes.

(2) It selects an unjust and unworkable criterion for the excess-profits tax.

(3) It proceeds to an unheard-of height in the income tax.

(4) It imposes unwarranted burdens upon the consumption of the community.

(5) It is calculated to throw business into confusion by levying taxes on gross receipts instead of upon commodities.

(6) It fails to make a proper use of stamp taxes.

(7) It follows an unscientific system in its flat rate on imports.

(8) It includes a multiplicity of petty and unlivable taxes, the vexatiousness of which is out of all proportion to the revenue they produce.

The fundamental lines on which the House bill should be modified are summed up here:

(1) The amount of new taxation should be limited to \$1,250,000,000—or at the outset to \$1,500,000,000. To do more than this would be as unwise as it is unnecessary. To do even this would be to do more than has ever been done by any civilized Government in time of stress.

(2) The excess-profits tax based upon a sound system ought to yield about \$500,000,000.

(3) The income-tax schedule ought to be revised with a lowering of the rates on earned incomes below \$10,000, and with an analogous lowering of the rates on the higher incomes, so as not to exceed 34 per cent. A careful calculation shows that an income tax of this kind would yield some \$450,000,000 additional.

(4) The tax on whisky and tobacco ought to remain approximately as it is, with a yield of about \$230,000,000.

These three taxes, together with the stamp tax at the low rate of the House bill, and with an improved automobile tax, will yield over \$1,250,000,000, which is the amount of money thought desirable.

The above program would be in harmony with an approved scientific system. It will do away with almost all of the complaints that are being urged against the present. It will refrain from taxing the consumption of the poor.

It will throw a far heavier burden upon the rich, but will not go to the extremes of confiscation. It will obviate interference with business and will keep unimpaired the social productivity of the community.

Letter From First Clearfielder In France

Guy Lawhead Tells Story of His Trip to Battle Front

May 14, 1917 On Board Ship

Dear Mother and All:

We have now been out upon the ocean for a week and are due to land in Liverpool, England on Thursday. We have had fine weather for the voyage. The trip, surely has been fine.

The second day out from New York

There was quite a storm. The ship rocked and most of us were pretty sea sick, but we were all better, the next day.

We all have uniforms, but do not carry guns. The only weapon we carry is a large knife. We have school every day for three hours. Then drill for two hours. That is about all we have to do while on board. We are traveling third class but are allowed second class privileges. We have use of all the decks.

Besides the hospital unit there are almost 150 passengers on the ship, mostly English who are returning home from America. We have quite a good time on board in the evening. We are not allowed to show any lights but it does not get dark until almost 10 o'clock.

You can send this letter up to Cora for them to read for I don't get a chance to write very much. Of course there has not been much doing on board ship for us to write about. I suppose we will have something to write about as soon as we get settled. Then the big thing will be time to the people that you hear from me and what I have to say because we are only allowed to write to our families. I did not think a few weeks ago that I would get to see this side of the ocean so soon, but now that I am here I do not regret it in the least. I suppose there was something in the papers about the first troops leaving America for the war, but I guess there will be a bigger item in when we get back.

They have almost everything one can imagine on one of these large

Our Sale of White Wear

Has Justified Our Claim For Most Unusual White Wear Values

If we were located in a city, ten times the size of Clearfield we could not offer more substantial evidence of our value giving ability or white wear values which you could better, nor could you secure goods of better quality. The undermuslins on sale have been carefully made and in the right proportions, even the lowest priced garment in the store is made in a satisfactory manner. We merely quote these points to give you a clear idea of the kind of white goods you will find when you visit the store.

We all have uniforms, but do not carry guns. The only weapon we carry is a large knife. We have school every day for three

FORESTRY PROGRAM FOR PITTSBURGH MEETING

Fine Entertainment to Be Provided For Delegates to Big Conservation Congress.

The local committee of arrangements for the International Forestry Conservation Congress at Pittsburgh June 21 to 23 next has announced its program for the meeting, which will bring together the leading foresters and conservationists of the country. Thomas Liggett, general chairman, will call the congress to order at 9 a. m. on Thursday, June 21, in the auditorium of the Pittsburgh Chamber of Commerce. The delegates will be welcomed by Mayor Joseph G. Armstrong of Pittsburgh and by Frank J. Lannahan, chairman of the convention committee of the chamber of commerce. The response will be made by Dr. Henry S. Drinker, president of the Pennsylvania Forestry association. Addresses will be made by Charles Lathrop Pack, president of National Emergency Food Garden Commission and of the American Forestry association; A. B. Farquhar, president of the Pennsylvania Conservation association, and Hon. Robert S. Conklin, commissioner of forestry of Pennsylvania.

In the afternoon the delegates will leave the headquarters at the Fort Pitt hotel for a motor trip over Pittsburgh's improved roads, with one or two stops to inspect points of interest in forestry propositions. They will visit the Country Lanes association of Susquehanna valley and return at 5:30. At 8 p. m. there will be an informal reception of visitors and delegates at the chamber of commerce. George M. Lehman, engineer of the Lake Erie and Ohio canal commission, will read a paper on "Forest Cover in Its Relation to Water Flow, Floods and Droughts." George H. Wirt, chief forest warden of Pennsylvania, will lecture on "Forest Fire Prevention," illustrated by the department of forestry film, "The Cause of the Forest."

At 9 a. m. Friday addresses will be delivered by Dr. Silbert Roth, professor of forestry of the University of Michigan; Professor H. E. Barnard of the University of Toronto, Canada; and Dr. Henry S. Drinker of the United States division of forestry. In the afternoon James L. Grimes, city forester, will give an open air lecture on "Shade Trees and Municipal Planting," visiting places of interest about the city.

At 8 p. m. Dr. J. T. Rothrock, president emeritus of the Pennsylvania association, will give an illustrated lecture, "Desolated Pennsylvania," and John M. Phillips will speak on "What the Forestry Association Can Do to Help Western Pennsylvania Secure Forest Areas."

Saturday, June 23, will be devoted to an excursion in a special train via the Baltimore and Ohio railroad to the forest areas of Laurel Ridge in Fayette county, Pa., with an al fresco luncheon.

STEEL FIRE LOOKOUT.

This is the forest fire warden's periscope. It stands on high ground in Pennsylvania's state forest preserves

Steel Lookout Tower.

and gives the forester a view for many miles around. This picture is from the exhibit which will be shown at the Forestry Conference in Pittsburgh June 21 to 23 next.

NOTICE OF AMENDMENT OF CHARTER

Notice is hereby given that application will be made to the Public Service Commission of the Commonwealth of Pennsylvania by T. W. Phillips Gas and Oil Company of Butler, Pa., for a certificate of Public Convenience, authorizing the Commission's approval of an amendment of charter by enlargement of territory within which the company may purchase, purchase or otherwise acquire and own natural gas for other light, heat or both, or other purposes, and to have all the rights and privileges necessary or convenient thereto; so as to include the whole of the counties of Clearfield, Elk and Cameron in the State of Pennsylvania.

The public hearing on which will be held in the room of the Commission at Harrisburg on the 2nd day of June, 1917, at 2:30 o'clock A. M. when and where all persons in interest may appear and be heard if they so desire.

J. L. S. HAWK Solicitor for Applicant

Tickets for the Schior play will be changed free of charge at Stewart's drug Store Saturday, Monday and today afternoons.

Liberty Loan Message To American Women

Every Woman in Clearfield County Should Read This Article

By Mrs. Antoinette Funk
Vice Chairman of the Woman's Liberty Loan Committee

Since the government has called upon the women to Give their sons for our country's life, the Woman's Liberty Loan Committee dares to call upon them to help Supply the money to sustain these sons.

Washington, June 8.—The purpose of the Liberty Loan is to give funds to the government so that it can conduct this war for liberty and democracy in an efficient manner. The quicker this money is supplied, the quicker will come the end of the war with its consequent saving of human life. The denominations of the bonds are as low as \$50 and the payments are easy. A subscriber can pay cash if she wants to, but she does not have to. A Liberty Bond should be in every home.

Because so far we have been remote from the scene of war, we are inclined like the foolish ostrich, to hide her heads in the sand, not realizing, not believing, closing our eyes to the actual threats of danger that are here. No man liveth to himself alone and the time is here when no nation liveth to itself alone. We are bound up in the warp and woof of nations, a part of the fabric. The welfare of one is the welfare of all.

The gigantic struggle that has been going on in Europe for almost three years is not a struggle to settle boundaries, not to gain revenge for old disputes. It is a war to establish the right to life and liberty. It is a war against awfulness. It is a war against the savagery that sent the Lusitania to the bottom.

It is our notice served upon the world that the high seas are free to the world. It is a notice to the world that we and our neighbors in this hemisphere will not tolerate that the oppressor's foot be sent upon our shores. It is for the honor and safety of our women. It is for a safe and free home for our children. The only nation under the sun which was born a democracy is carrying her doctrine of democracy to the uttermost parts of the earth.

As women have always helped, they must help now. Their first great task is lending out of their fulness that the war of righteousness upon which America is now engaged shall result in a glorious past and a glorious freedom and that the generations that come after us may indeed call us blessed. Every woman's first duty is to buy a Liberty Loan Bond. It is a woman cannot buy a bond, it is her duty to persuade some other woman who can do so.

WOUNDED THREE TIMES, HE WANTS REVENGE

London, June 8.—Introducing Mr. Harry McMichael of Augusta, Ga. Mac has been strafe three times by the Kaiser's missiles, but he hasn't taken the count yet and all he wants is another shot at a spiked helmet.

Mac learned the game in the Second United States Cavalry. He joined the Fifteenth Canadian Battalion in June, 1915. A machine gun bullet hit his leg in the fall of that year. Back from the hospital, a shell fragment picked his brow as he went "over the top" in a charge.

Back once more from "blighty," Mac took a stretch and a yawn in view of the German trenches and a bullet bored his jaw, removing five teeth. Today, in the hospital, this soldier of the south is just getting on his feet again. He wants to join the Americans when they arrive—and his ear is eager for the welcome sound of "Dixie."

A century ago several Americans began the building of a submarine boat with an idea of using it in an attempt to rescue Napoleon from St. Helena.

LADIES! DARKEN YOUR GRAY HAIR

Use Grandmother's Sage Tea and Sulphur-Recipe and Nobody will Know

The use of Sage and Sulphur for restoring face, gray hair to its natural color dates back to grandmother's time. "She used it to keep her hair beautiful dark, glossy and attractive. Whenever her hair took on that faded, or streaked appearance, this simple mixture was applied with wonderful effect.

But howing at home is money and out of date. Nowadays by adding at any drug store for a 50 cent bottle of Wyeth's Sage and Sulphur Compound you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well known downtown druggist says it darkens the hair so naturally and evenly that no one can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after a few applications or two, it becomes beautifully dark and glossy.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

MAURICE McLAUGHLIN WILL COME BACK AT TENNIS

By H. C. Hamilton
(United Press Staff Correspondent)

New York, June 7.—From the Pacific Coast comes the news that Maurice McLaughlin, the red-haired comet of tennis, is on his way back to New York. Picking out a doubles contest in which McLaughlin, with some help from Willis Davis, downed William M. Johnston and Wallace Strachan, the coast fans have been praising the former unbeatable champion until their throats must ache.

Reports of Mac's return to form must be taken with something of a grain of salt. His feat in winning, almost single handed, the doubles match spoken of doesn't mean an awful lot. He virtually performed the same thing a year ago at Forest Hills here, but failed when he started against the stars in the singles contest.

McLaughlin was so good in the best days of his career and is so different now that a comparison between the two is something almost impossible. When a fan sees Mac streak along for a short time with his fierce drives and speedy return shots from unbelievable angles he immediately loses all control of his emotion and pronounces McLaughlin on the way back.

There isn't a tennis fan in the United States who wouldn't like to see McLaughlin's sorell tresses again adorned with the national crown. There never was a more popular athlete in any branch of sport than the red-headed tennis streak. But to say that McLaughlin has reached the heights he once attained probably is overdoing it. It is hard to believe he has accomplished what he failed in doing a year ago after making such a brilliant showing in doubles play.

Undoubtedly the praise he has received and the satisfaction he must have gained in being able to down a former national champion in Johnston will be a most impelling thing in sending Mac to try his hand at the game again next fall on the Forest Hills courts. He can't win a championship this year, for there will be no such thing, but he can find out if he is ready.

The foundry at Crusot, where the great guns for the French army and navy are made, was started 80 years ago by a family named Schneider. Today the plant rivals in size the famous Krupp works at Essen.
